| July, 2010 (6) | 3.00% | 0.00% | 3.00% |

(1) Promotions, market adjustments, responsibility increases

(2) Annual increase cycle - last merit increase was processed in September 2003

(3) Represents a half-year's merit increase since prior merit processed six months earlier in September 2004
If an annual merit increase would have been processed, the percentage would be 3.5%

(4) Represents 15/12th's of an annual merit increase projected at 3.8%. As a result of the acquisition
by National Grid, merit increases for management employees are effective in July 2008. Since prior merit was processed
in April 2007, legacy KeySpan management employees received 15/12th's of the annual percentage

(5) A decision was made not to provide merit increases in 2009 given the economic climate, but to provide 1.5% of payroll
for promotion and equity adjustments

(6) The Company is projecting a 3% salary increase for July 2010. While current economic conditions led National Grid to implement a very conservative position on non-union salary increases in 2009, the Company plans to implement a 3% increase effective
