RE: Docket No. 06-067, Bay ring Petition for Investigation into Verizon New Hampshire's Practice of Imposing Access Charges, Including Carrier Common Line (CCL) Access Charges, on Calls Which Originate on Bay Ring's Network and Terminate on Wireless Carriers' Networks

Dear Ms. Howland:

Pursuant to the schedule in this docket, enclosed for filing by AT&T Corp., please find an original and six copies of:

AT&T's CONFIDENTIAL calculation of disputed carrier common line charges with credit adjustments.

In addition, I have also enclosed a disk that contains an electronic file in Excel format showing AT&T's calculation of disputed carrier common line charges with credit adjustments. The disk and paper copies of the calculations are enclosed in a separate envelope marked "Confidential."

AT&T requests that the paper and electronic copies of AT&T's calculation of disputed carrier common line charges with credit adjustments be treated as confidential pursuant to RSA 378:43 and the confidential treatment already provided to AT&T's earlier estimate of disputed charges in this docket, in accordance with Staff Attorney Fabrizio's recommendation in footnote 1 of her November 5, 2008, letter to you.

The foregoing calculations do not include overcharges for calls terminated to wireless carriers over Type 1 interconnections. AT&T believes that Verizon has the information necessary to make this calculation. While AT&T reserves its right to contest this issue, AT&T believes that this issue can be worked out collaboratively with Verizon.

If you have any questions regarding this matter, please contact me at the address or email above. Thank you.

Sincerely,

Jay E. Gruber
