Re: DW 08-095 Warner Village Water District  
Petition to Discontinue Water Service and Modification of Franchise  
Boundaries

Dear Ms. Howland:

I am writing to update the Commission as to the above Docket. On February 11, 2010, the District requested that the docket not be closed. On May 7, 2010 District Commissioner Savlen requested by telephone to Richard Schofield that he send the application for a waiver form for the Buckley and Benward property to continue the compliance process. Mr. Schofield responded by letter dated May 10, 2010 with the form requested and a list of action items for the District to complete. On February 17, 2011 the District submitted the completed items requested by Mr. Schofield in his May 10, 2010 letter.

On March 9, 2011, the District received a letter from Richard J. de Seve, the compliance supervisor for the DES Subsurface Systems Bureau listing an additional seven items required to complete the application.

At this writing, the District is gathering the documentation to respond to the seven items. We anticipate we will be submitting this as soon as Jeff Evans, our surveyor plots the wells and radii on the four lot plans. We received the plans last week from the Bureau.

We respectfully request the Commission to keep the Docket open to allow us to finish this process.

Sincerely,

  
Ray Martin  
District Commissioner
