**Subject:** Aquarion rate increase

My name is Sean Toland, i live at 3 Johnson Ave. on hampton beach. I am addressing this matter about the rate increase on my water because there was no work done on 3 johnson ave. The state of new hampshire paid for the alterations of the water lines not aquarion. Where do they have the nerve to try and give us a 300 % increase on water rates. There was no work done on the back half of hampton beach on Ashworth ave from the police station to ocean wok there was no pipes changed on the back half of the residents of hampton beach. The people of hampton beach who live here through the winter should not be subjected to the rates that apply to people who rent their houses out for financial gain. These non-resident who gain financially from renting their homes are not true residents of hampton and should have the rate apply to them!

The true residents of hampton are hard working people struggling to get by while the rental properties is making money on their second property. The state of newhampshire ran out of money to complete the road,sewer, water,gas, yet they have a proposal to build a band stand at a sum of 20 million is there something wrong here!There are plenty of businesses at hampton beach that can absorb the price increase not our year round hard working people!!!

Thank you  
Sean Toland
