Re: Monthly Renewable Default Energy Service Rate Program Review Update

Dear Ms. Howland:

In Docket No. DE 09-186, Public Service Company of New Hampshire (PSNH) agreed to file a program review of the Renewable Default Energy Service Rate twelve months after the program started. This report was filed with the Commission on June 16, 2011.

On July 28, 2011 PSNH met with Commission Staff and the Office of Consumer Advocate to discuss the Renewable Default Energy Service Rate annual program review. During this meeting Commission Staff and OCA requested that PSNH file a monthly report showing the number of customers signed up for the Renewable Default Energy Service Rate, along with the amount of kilowatt-hours broken down by option selected.

Enclosed for filing with the Commission is a Monthly Renewable Default Energy Service Report for period of May 2010 through October 2011. This report is being filed electronically with one paper copy being sent to the Commission.

We would be pleased to respond to any questions the Commission may have on this report.

Sincerely,

Heather M. Arvanitis
Analyst
