

**THE STATE OF NEW HAMPSHIRE  
PUBLIC UTILITIES COMMISSION**

**DG 10-051**

**ORDER OF NOTICE**

On March 15, 2010, EnergyNorth Natural Gas, Inc. d/b/a National Grid NH (National Grid NH) filed with the Commission its proposed COG rates for the period May 1, 2010 through October 31, 2010 (2010 Summer Season) and proposed modifications to its hedging policy. Included in the filing were revised tariff pages, revised Natural Gas Price Risk Management Plan, and supporting materials for the changed rates and hedging policy. The petition and subsequent docket filings, other than information for which confidential treatment is requested of or granted by the Commission, will be posted to the Commission website at <http://www.puc.nh.gov/Regulatory/Docket/2010/10-051.htm>.

The proposed residential COG rate is \$0.7784 per therm, a \$0.1678 per therm increase from the weighted residential COG rate of \$0.6106 per therm for last summer. The estimated impact of the proposed firm sales COG and current delivery and LDAC rates on a typical residential heating customer's summer bill is an increase of approximately \$59, or 17%, compared to last summer.

The proposed commercial/industrial low winter use COG is \$0.7778 per therm and the proposed commercial/industrial high winter use COG is \$0.7788 per therm. The rate increase for the commercial/industrial customers over the comparable 2009 Summer Season rates is commensurate with the residential COG rate increase.

The proposed hedging policy reduces the amount of hedging, adopts an alternative methodology in determining the amount to hedge, eliminates the financial hedging of storage gas and provides for recovery of the cost of collateral required for hedging transactions.

The filing raises, inter alia, issues related to: RSA 378 relative to the justness and reasonableness of rates, forecasting of sales, supplier prices and transportation prices, purchasing decisions related to the current and past summer supplies and capacity, the causes and treatment of any over and under recoveries, the reconciliation of prior period costs and revenues, rate impacts, the costs and risks associated with hedging and whether the proposed amendments to the hedging program are appropriate. Each party has the right to have an attorney represent them at their own expense.

**Based upon the foregoing, it is hereby**
