Re: DT 10-205, Freedom Ring Communications, L.L.C. d/b/a BayRing Communications
     Petition for Waiver of NeuStar's Denial for One One-Thousand Block

Dear Ms. Wirth:

On August 5, 2010, you filed on behalf of Freedom Ring Communications, L.L.C. d/b/a BayRing Communications (BayRing) a petition seeking a waiver of NeuStar's decision to deny BayRing's request for a new one-thousand block of numbers required for a customer in Exeter, New Hampshire. According to BayRing, its customer is expanding and requires one thousand numbers for use beginning October, 2010.

Pursuant to the FCC's Numbering Resource Optimization Third Report and Order and Second Order on Reconsideration (FCC 01 -362) Appendix A, Final Rules, 52.15(g) (4) a state commission may overturn NeuStar's decision to withhold numbering resources from a carrier if the state commission determines that the carrier has "demonstrated a verifiable need for numbering resources and has exhausted all other remedies."

Staff has reviewed the documentation filed in support of the request and confirmed that a verifiable need exists and that numbering resources are available. Staff recommends that the waiver be granted.

The Commission has determined that the applicable standards have been satisfied and has granted BayRing's request. Accordingly, the Commission requests that the Pooling Administrator release the Exeter block requested by BayRing."

Please acknowledge receipt of this notice along with the completion date of the block assignments.

Sincerely,

Debra A. Howland
Executive Director
