Re: ~~DM-09-127~~ DM-127, Renewal of South Jersey Energy Company's CEPS license

Dear Ms. Howland:

Based on feedback received from your office, South Jersey Energy Company dba Halifax American Energy Company's (SJE) submits the following supplemental information for its Competitive Electric Power Supplier (CEPS) license.

SJE will provide a new Parental Guaranty to New Hampshire Public Utility Commission on or before July 31, 2011, the date of the expiration of the current Guaranty.

Attached is the current agreement between South Jersey Energy Company and Halifax American Energy Company. As stated in our renewal request, South Jersey Energy Company and the Halifax American Energy Company have partnered since 2007 to offer retail electric supply in the state of New Hampshire, and throughout New England. Under this arrangement Halifax American Energy Company acts as the exclusive marketing agent for the South Jersey Energy Company, such that Halifax American Energy Company only transacts business on behalf of the partnership. Halifax American Energy Company works with no other suppliers other than South Jersey Energy Company, and South Jersey authorizes no other company in New Hampshire to transact retail electric supply business under the supply license

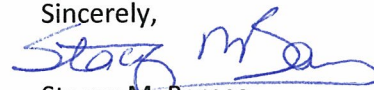

Also attached is the EDI test completion certificate for UNITIL, which was not included in our license renewal request.

A sample contract for NH customers was inadvertently omitted from the original renewal package. Please see the contract attached.

Regarding the sample bill provided, your office asked how ICAP is calculated. ICAP is a pass through charge based on information we receive through EDI of the utility. It is not something SJE calculates separately.

Thank you for your attention to this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "Stacey M. Barnes", with a stylized flourish at the end.
