September 20, 2010

VIA EMAIL AND FEDERAL EXPRESS

Ms. Debra A. Howland
Executive Director and Secretary
State of New Hampshire
Public Utilities Commission
21 S. Fruit Street, Suite 10
Concord, NH 03301-2429

Re: New Hampshire Gas Corporation: Winter 2011-2012 Cost of Gas Adjustment

Dear Ms. Howland:

In accordance with the Commission's Tariff Filing Rules and in accordance with the terms of New Hampshire Gas Corporation's ("NHGC") cost of gas adjustment, enclosed are an original and two (2) copies of the following pages: 45th Revised Tariff page 24, with supporting data and pre-filed testimony, proposed to become effective November 1, 2011. The tariff page and attachments provide the calculation of the Cost of Gas Adjustment for the Winter Period November 1, 2011 through April 30, 2012. For the six-month period, the Cost of Gas Rate for the Non-Fixed Price Option Program is \$2.2157 per therm and \$2.2357 per therm for the Fixed Price Option Program; and the total revenue to be collected by the cost of gas adjustment is \$2,208,885. Please note that NHGC's Motion for Protective Order relating to Appendix 4 is being filed under separate cover.

Also enclosed are an original and two (2) copies of the tariffs and supporting documentation for the new delivery rates reflecting an increase in delivery charges of \$57,746, beginning November 1, 2011, as authorized by the terms of the Settlement Agreement approved in Order 25,039. Please return a copy of the tariff page, bearing the Commission's receipt stamp, in the enclosed envelope. If you require further information, or have any questions, do not hesitate to contact me.

Sincerely,

Meabh Purcell

cc: Robert Wyatt, NHPUC

Brian R. Maloney, Rochester Gas and Electric Corporation

Winter 2011-2012 Cost of Gas Filing Direct Testimony of Brian R. Maloney

1	Q.	Please state your name, employer and business address.			
2	A.	My name is Brian R. Maloney. I am employed by Rochester Gas and Electric			
3		Corporation ("RG&E") and my business address is 89 East Avenue, Rochester,			
4		NY 14649.			
5					
6	Q.	What is your position?			
7	A.	I am a Lead Analyst in the Rates and Regulatory Economics Department.			
8		·			
9	Q.	Please briefly describe your educational and professional background.			
10	A.	I graduated from the Rochester Institute of Technology with a Bachelor of			
11		Science degree in Business Administration. I joined RG&E in 2000 as an Analyst			
12		in the Corporate Accounting Department, and transferred as a Lead Analyst to the			
13		Rates and Regulatory Economics Department in 2004. Prior to joining RG&E, I			
14		held financial analysis positions in the banking and telecommunications			
15		industries.			
16					
17	Q.	Please summarize your responsibilities.			
18	A.	My primary responsibilities currently consist of financial reporting, analysis,			
19		forecasting and regulatory requirements related to RG&E's electric revenues and			
20		margins. I have also been responsible for similar duties in RG&E's gas business,			
21		and have prepared testimony, exhibits, and rate design for three gas rate cases. I			
22		assumed responsibility in late-2010 for several of the regulatory requirements for			
23		New Hampshire Gas Corporation ("NHGC" or the "Company") related to the			
24		seasonal cost of gas ('COG") filings and reconciliations, monthly COG rate			
25		adjustments, and monthly income statements.			

26

1	Q.	Have you testified as a witness in any proceedings involving either company?
2	A.	I have testified as a witness before the New York Public Service Commission in
3		each of the last three RG&E delivery rate cases in 2002, 2004, and 2010,
4		primarily on the topics of gas revenue forecasts and rate design. I testified before
5		the New Hampshire Public Utilities Commission (the "Commission" or "PUC")
6		in NHGC's Summer 2011 Cost of Gas proceeding, Docket DG 11-054.
7		
8	Q.	What is the purpose of your testimony in this proceeding?
9	A.	The purpose of my testimony is to explain the calculation of the Cost of Gas Rate
10		to be billed from November 1, 2011 to April 30, 2012. My testimony will also
11		address the delivery rate increase effective November 1, 2011 and other issues
12		related to the winter period.
13		
14		COST OF GAS ADJUSTMENT
15		
16	Q.	Please explain the calculation of the Cost of Gas Rate on the proposed 45 th
17		revised Tariff Page 24.
18	A.	The proposed 45 th revised Tariff Page 24 contains the calculation of the Winter
19		2011-2012 COG rate and summarizes the Company's forecast of propane sendout
20		and propane costs. The estimated total cost of the forecasted propane sendout
21		from November 1, 2011 through April 30, 2012 is \$2,172,053. The information
22		presented on the tariff page is supported by Schedules A through J that will be
23		described later in this testimony.
24		
25		To derive the Total Anticipated Period Costs, the following adjustments have
26		been made:
27		1) The prior period under-collection of \$33,215 is added to the forecasted
28		propane costs. The calculation of the under-collection is demonstrated on
29		Schedule G.
30		

1		2) Interest of \$3,617 is added to the forecasted propane costs. Schedule H
2		shows this forecasted interest calculation for the period May 2011 through
3		April 2012. The interest calculation is based on the Wall Street Journal's
4		posted prime rate.
5		
6		The Non-Fixed Price Option ("Non-FPO") cost of gas rate of \$2.2157 per therm
7		is calculated by dividing the forecasted Total Anticipated Cost of \$2,208,885 by
8		the Projected Gas Sales of 996,907 therms. The Fixed Price Option ("FPO") rate
9		of \$2.2357 per therm was established by adding a \$0.02 premium to the Non-FPO
10		rate.
11		
12	Q.	Please describe Schedule A.
13	A.	This Schedule A converts the gas costs from gallons to therms. The 1,094,097
14		therms represent propane sendout as detailed on Schedule B, Line 3, and the unit
15		cost of \$1.9883 per therm represents the average cost per therm for the winter
16		period sendout as detailed on Schedule F, Line 81.
17		
18	Q.	What is Schedule B?
19	A.	Schedule B represents the under/(over) collection calculation for the 2011-2012
20		winter period based on the forecasted volumes, the cost of gas, and applicable
21		interest amounts. The Total Sendout forecast on Line 3 is the weather normalized
22		2010-2011 winter period firm sendout and company use. The Firm Sales forecast
23		on Line 9 is derived from weather normalized 2010-2011 winter period firm sales.
24		The weather normalization calculations for Sendout and Sales are found in
25		Schedules I and J respectively.
26		
27	Q.	Are unaccounted-for gas volumes included in the filing?
28	A.	Unaccounted-for gas is included in the Firm Sendout on Schedule B, Line 1, and
29		is displayed on Line 4 of that schedule. The Company continues to actively
30		monitor its level of unaccounted-for volumes, which amounted to 2.92% per the

most recent U.S. DOT report for the twelve months ended June 30, 2011.

31

1		Although this rate is higher than the 1.66% for the prior twelve month period, it
2		nonetheless represents a continuation of significantly lower gas losses in
3		comparison to 5-10 years ago. The general reduction in loss levels is attributed to
4		a leak repair program, cast iron main replacements, and meter replacements.
5		•
6	Q.	Please describe Schedules C, D, and E.
7	A	Schedule C presents the calculation of the total forecasted cost of propane
8		purchases in the 2011-2012 winter period, segregated by Propane Purchase
9		Stabilization Plan ("PPSP") purchases, spot purchases, and storage costs.
10		Schedule D is a synopsis of the structure of PPSP pre-purchases for the winter
11		period, the monthly average rate of the pre-purchases, and the resulting weighted
12		average contract price for the winter period as used in Schedule C, Line 10.
13		Schedule E presents the forecast of the per-gallon cost for spot purchases as used
14		in Schedule C, Lines 24-29.
15		
16	Q.	Please describe the Propane Purchase Stabilization Plan.
17	A.	The PPSP, as approved in Order No. 24,617 in Docket DG 06-037, was again
18		implemented with no material changes from prior years. As shown on Schedule
19		D, the company pre-purchased 700,000 gallons of propane between April and
20		September at a weighted average price of \$1.7949 per gallon (\$1.9616 per therm),
21		inclusive of broker fees, pipeline fees, PERC fees, and trucking charges from the
22		Selkirk, NY terminal.
23		
24	Q.	How was the cost of spot purchases determined?
25	A.	The forecasted spot market prices of propane as shown on Schedule E are Mont
26		Belvieu propane futures quotations as of September 15, 2011. The delivered cost
27		of spot purchases is then determined by adding broker fees, pipeline fees, PERC
28		fees, and trucking charges.
29		

	2711	Page 5 of
1	Q.	Please describe Schedule F.
2	A.	Schedule F is a forecast of the weighted average cost of propane in inventory for
3		each month through April 2012. This Schedule is important as the total cost of
4		propane sendout each month is a weighted average cost inclusive of pre-
5		purchased deliveries, spot deliveries, and withdrawals from storage.
6		
7	Q.	What is Schedule G?
8	A.	Schedule G shows the calculation of the actual under-collected balance for the
9		prior winter period November 2010 through April 2011, including interest. This
10		period has been audited by Commission Audit Staff and was found to be
11		materially accurate. The final under-collected balance of \$33,215 (Line 11) is
12		included on Schedule H, Line 1, Column 1.
13		
14	Q.	How is Schedule H represented in the COG calculation?
15	A.	Schedule H presents the interest calculation on (over)/under collected balances
16		through April 2012. The prior period under-collection plus interest on that
17		balance through October 31, 2011 is included on Schedule B, Line 14 in the
18		"Prior" column. The forecasted monthly interest for the winter period 2011-2012
19		in Column 7 is included on Schedule B, Line 13. The net amount of the prior

21 22

23

20

page.

FPO AND NON-FPO CUSTOMER PROGRAMS

period under-collection plus the total interest amount is also included on the tariff

24

26

27

28

29

30

Will the Company offer an FPO program for the Winter Period 2011-2012? 25 Q.

Yes, the Company intends to offer the FPO program for the upcoming winter A. period to allow customers to lock in their cost of gas. Enrollment in this program is limited to 50% of forecasted winter sales, with allotments made available to both residential and commercial customers on a first-come, first-served basis. The FPO enrollment period is expected to close on or about October 19, 2011,

1		and based on historical participation the Company expects FPO volumes of
2		approximately 170,000 therms.
3		
4	Q.	Will a premium be applied to the FPO rate?
5	A.	Yes. As approved in Order No. 24,516, Docket DG 05-144, the Company applied
6		a \$0.02 per therm premium to the Non-FPO cost of gas rate to derive the FPO
7		rate.
8		
9	Q.	How will customers be notified of the availability of the FPO program?
10	A.	A letter is expected to be mailed to all customers in late September 2011 advising
11		them of the program and how to participate in it.
12		
13	Q.	Did the Company offer the FPO program for the winter period 2010-2011?
14	A.	No. The Company suspended the FPO program last winter because of an
15		embargo at its primary supply point in Selkirk, NY resulting from a pipeline leak
16		identified upstream in Gilboa, NY. The pipeline company could offer no
17		assurance that the terminal would be open for that heating season. A letter
18		describing these developments was sent to customers on October 5, 2010.
19		
20	Q.	What is the status of the Selkirk terminal?
21	A.	The pipeline leak mentioned above was fully rectified, and the Selkirk terminal
22		was reopened over February-March 2011. However, as of early-September 2011,
23		the terminal was placed under a temporary embargo due to flooding in the area
24		caused by tropical storms Irene and Lee.
25		
26	Q.	What is the potential impact on the FPO program of this temporary embargo
27		at the Selkirk terminal?
28	A.	The Company has been monitoring the situation closely. The Company's supplier
29		representative has stated the terminal is expected to re-open during the week of
30		September 25. In the event that the Company believes the re-opening of the
31		terminal before the start of the heating season is at risk, it will assess the

1		advisability of offering the FPO program for the upcoming winter period. This
2		assessment, to be made in consultation with PUC Staff, will need to be completed
3		before the end of September so that an appropriate letter regarding the FPO
4		program can be sent to customers.
5		
6		COG RATE AND BILL COMPARISONS
7		
8	Q.	How does the proposed winter period 2011-2012 COG rate compare with the
9		winter period 2010-2011 COG rate?
10	A.	The projected COG rate of \$2.2157 for Non-FPO customers is an increase of
11		\$0.4180 per therm or 23.3% from the average winter period 2010-2011 rate of
12		\$1.7977. The proposed FPO rate is \$2.2357 per therm. There was no comparable
13		rate in the prior winter period, as the FPO program was not offered.
14		
15	Q.	What are the primary reasons for the higher rate?
16	A.	The primary reasons for this change are an increase in the PPSP contract rate to
17		\$1.9616 from \$1.4877 per therm due to an increase in futures prices during the
18		pre-purchase period, as well as higher projected market prices for spot purchases.
19		
20	Q.	Has there been any impact from pipeline, PERC or trucking fees on the COG
21		rate?
22	A.	The pipeline fee has increased by \$0.0085 to \$0.1315 per therm compared to last
23		winter, and PERC fees are unchanged. Trucking fees are forecasted to decrease
24		to standard levels reflecting the expected normal operation of the Selkirk terminal
25		and the resulting elimination of the longer shipping distances and wait times
26		encountered last winter.
27		
28	Q.	What is the impact of the winter period 2011-2012 COG rate on the average
29		residential heat and hot water customer participating in the FPO program?
30	A.	As shown on Schedule K-1, Lines 32 and 33, the average residential heat and hot
31		water FPO customer would experience an increase of \$408.25 or 24.4% in the gas

1		component of their bills compared to the prior winter period. When the monthly			
2		customer charge and the per therm delivery charge are factored into the analysis,			
3		the average customer would see a total bill increase of \$449.27 or 16.8%.			
4		11 4 . 15.127 61 16.1676,			
5	Q.	What is the impact of the winter period 2011-2012 COG rate on the average			
6		residential heat and hot water customer choosing the Non-FPO program?			
7	A.	As shown on Schedule K-2, Lines 32 and 33, the average residential heat and hot			
8		water Non-FPO customer is projected to see an increase of \$389.61 or 23.3% in			
9		the gas component of their bills compared to the prior winter period. When the			
10		monthly customer charge and the per therm delivery charge are factored into the			
11		analysis, the average customer would see a total bill increase of \$430.63 or			
12		16.1%.			
13					
14	Q.	Please describe the impact of the winter period 2011-2012 COG rate on the			
15		average commercial customer compared to the prior winter period.			
16	A.	Schedules L-1 and L-2 illustrate that the average FPO and Non-FPO commercial			
17		customer would see an increase in the gas component of their bills of \$645.87			
18		(25.4%) and \$617.33 (24.3%) respectively. When the monthly customer charge			
19		and the per therm delivery charge are included, the average FPO and Non-FPO			
20		commercial customer would see total bill increases of \$709.77 (17.8%) and			
21		\$681.23 (17.0%) respectively.			
22		()			
23		OTHER ITEMS			
24		O THE WILL			
25	Q.	Please discuss any other adjustments to rates for the winter period 2011-			
26		2012.			
27	A.	Pursuant to the 2009 Settlement Agreement approved in Order No. 25,309, the			
28		Company is authorized to increase its delivery revenues by an additional \$57,746			
29		beginning November 1, 2011. The requisite marked and clean tariffs and the			
30		supporting documentation for the new delivery rates are provided with this filing.			
31					

1	Q.	Please describe how the Company will meet its 7-day on-site storage
2		requirement.

A. The Company has net storage capacity at its plant in Keene for approximately
75,000 gallons of propane. Additionally, the Company entered into a one year
contract for a 60,000 storage tank (51,000 gallons net capacity) at a facility
approximately 40 miles from the plant. The Company has arranged trucking from
this facility to the plant with Northern Gas Transport, Inc.

8

9

10

11

12

13

14

15

16

17

A.

Q. Has the Company researched diversifying its supply sources rather than getting most of its propane supply from the Selkirk terminal?

The Company has discussed with its supplier the reliability of the Selkirk terminal and the source pipeline, and the possibility of diversifying away from that supply point. In summary, the Company has determined its best course of action is to utilize its supplier's knowledge and expertise in providing the best possible purchase points for propane. Over the past 13 years, the supplier has provided a commitment to meeting the Company's supply requirements while at the same time being very conscientious of commodity pricing and shipping costs.

18

19

20

Q. Is the Company requesting a waiver of N.H. Code Admin. Rule Puc 1203.05 which requires rate changes to be implemented on a service-rendered basis?

A. Yes, the Company is requesting a waiver of N.H. Code Admin. Rule Puc 1203.05
as was granted in previous cost of gas and delivery rate proceedings. First, the
Company's customers are accustomed to rate changes on a bills-rendered basis
and an alteration in policy may result in customer confusion. Second, the
Company's billing system is not designed to accommodate a change to billing on
a service-rendered basis, and such a change would necessitate the modification or
replacement of the system at a substantial cost.

28

29

Q. Does this conclude your testimony?

30 A. Yes, it does.

Subject: Fuel Surcharge email .doc

Northern Gas Transport, Inc. Box 106 Lyndonville, VT 05851-0106 1-800-648-1075 FAX: 802-626-5039

September 13, 2011

To: All Customers

Re: Fuel Surcharge

As of Monday, September 12, 2011 the Department of Energy New England average price per gallon of diesel fuel was \$3.985. All deliveries invoiced from Sunday, September 18, 2011 through Saturday, September 24, 2011 will be line item assessed at 30.0% fuel surcharge.

Thank you and should you have any questions, please contact Susan Noyes at 1-800-648-1075 extension 223.

Best Regards,

Bruce Grant President Owner

#### LEASE AGREEMENT

This Lease Agreement ("Lease") is made as of this 17th day of May 2011, between Haffner's Service Station Inc. (hereinafter "Haffners"), a gas/oil company organized and existing under the laws of the State of New Hamsphire, with a principal place of business at 7 Sophia's Way, Greenville, New Hampshire 03048 and New Hampshire Gas Corporation, a corporation existing under the laws of the State of New Hampshire, with a principal place of business at 32 Central Square, Keene, New Hampshire 03431 (hereinafter "NHGC" and, together with Haffners, the "Parties"). Together the Parties hereby agree as follows:

WHEREAS, NHGC desires 60,000 gallons (net 51,000 @ 85%) of storage space for its propane for the 2011-2012 heating season; and

WHEREAS, Haffner's has available 60,000 gallons of storage space at its property located at 7 Sophia's Way, Greenville, New Hampshire 03048 and

WHEREAS, Haffner's is willing to lease storage space on a best efforts basis to meet the needs of NHGC for propane storage;

NOW, THEREFORE, in consideration of the mutual undertaking of the Parties as stated in this Lease, Haffner's and NHGC agree as follows:

- 1. Haffner's shall use its reasonable best efforts to make available to NHGC, subject to Haffner's Priority Right (as such term is defined below), propane storage as follows: (i) 60,000 gallons of storage on the Greenville Property. Haffner's retains all rights to retain sufficient storage capacity at the Haffner's Property for its own peaking needs (such rights collectively the "Haffner's Priority Right"). Notwithstanding the foregoing, in the event that the use of the storage space leased to NHGC pursuant to this Lease is necessary for Haffner's to meet its own peaking needs, the Parties shall use their reasonable best efforts to cooperate to achieve the objective of securing sufficient propane to meet the needs of both Parties.
- 2. This Lease shall be effective as of June 1, 2011 and shall continue until May 31, 2012 unless the lease is renewed or terminated earlier in accordance herewith. Upon the expiration or termination of this Lease, NHGC agrees to use reasonable best efforts at its sole cost and expense to ensure that all propane stored by NHGC pursuant to this Lease is removed from the Haffner's Property within thirty (30) days. Haffner's shall take title to, if any, propane not removed during such period. Haffner's, in its sole discretion, may either take title to such propane or cause it to be removed at NHGC's sole cost and expense (including reasonable attorneys' fees). Sections 3 -14 hereof shall remain in full force and effect until all propane has been removed or Haffner's has taken title to such propane.

- 3. The total fee paid by NHGC to Haffner's for the storage services provided pursuant to this Lease shall be (the "Storage Fee"). The Storage Fee shall be payable by NHGC upon the date hereof.
- 4. NHGC shall be solely responsible for all operations associated with the loading and unloading of the propane in and out of NHGC's transport tankers, and shall perform such operations with due care.
- 5. Except as set forth in Section 2 hereof, title to the propane stored pursuant to this Lease shall, at all times, be in NHGC's name. Haffner's makes no warranty of title whatsoever. NHGC warrants for itself, its successors and assigns that it will have at all times good title or valid right to deliver and store all propane stored pursuant to this Lease, and that such propane will be of a quality suitable for storage at the Haffners Property. NHGC agrees to indemnify and hold Haffner's harmless from all claims, damages, suits, penalties, fines or other costs arising directly or indirectly from or with respect to the title to or quality of the propane stored pursuant to this Lease.
- 6. NHGC shall maintain commercial general liability insurance in a minimum amount of 1 Million, which shall include coverage for, without limitation, injury to or death of a person or persons or damage to property occasioned by or arising out of or in connection with NHGC's use of the Haffner's Property.
- 7. Either Party may terminate this Lease upon written notice to the other Party in the event that such other Party shall have materially breached the provisions hereof. The provisions of Sections 5 14 hereof shall survive the termination or expiration of this Lease.
- 8. NEITHER PARTY NOR ITS AGENTS OR EMPLOYEES SHALL BE LIABLE TO THE OTHER HEREUNDER FOR AMOUNTS REPRESENTING LOSS OF REVENUES, LOSS OF PROFITS, LOSS OF BUSINESS, OR INDIRECT, CONSEQUENTIAL, SPECIAL OR PUNITIVE DAMAGES, EVEN IF HAFFNERS HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
- 9. NHGC shall indemnify and hold harmless and at its option, Defend in an indemnity suit, Haffner's for any and all claims, damages, suits, penalties, fines or other costs to the extent arising directly or indirectly from or with respect to the negligent or willful actions, of its employees, officers, directors, contractors or agents related to this Lease and the services to be provided hereunder.
- 10. This Lease shall be governed by the laws of the State of New Hampshire, without regard to its choice of law provisions. All disputes arising out of this Lease shall be subject to the exclusive jurisdiction of, and venue in, federal and state courts located in New Hampshire. The Parties hereby irrevocably consent to the personal and exclusive jurisdiction and venue of such courts.

- 11. This Lease may not be assigned by either Party without the written consent of the other Party, provided that no such consent shall be required to an assignment pursuant to a merger, corporate reorganization, or sale of all or substantially all of the assets of a Party. This Lease shall be binding upon, and shall inure to the benefit of, the permitted successors and assigns of the Parties.
- 12. No delay, failure or default in performance of an obligation hereunder (other than the obligation to make payment of amounts due hereunder) shall constitute a breach of this Lease to the extent caused by acts of God, strikes, lockouts, acts of war, civil disturbances or other causes not within the control of the Party claiming suspension and which such Party is not able to prevent or overcome with the exercise of due diligence.
- 13. All written notices to Haffner's in connection with this Lease shall be provided by fax and overnight express mail to the following:

Haffner's Service Station Inc. 7 Sophia's Way Greenville, NH 03048

14. All written notices to NHGC in connection with this Lease shall be provided by fax and overnight express mail to the following:

Mr. Michael Eastman Vice President, Gas Assets Rochester Gas and Electric 89 East Avenue Rochester, NY 14649-0001 Facsimile 585-724-8641

September 19, 2011

Mr. Steve Rokes General Managor New Hampshire Gas Corporation 32 Central Square Keene, NH 03431

Subject: Propane Delivery

Dear Steve:

The purpose of this letter is to respond to New Hampshire Gas Corporation's inquiry of Northern Gas Transport's ability to deliver a load of propane (9000 gallons each) daily for a continuous five-day period as stated in Section PUC 506.3 of the New Hampshire Code of Administrative Rules.

During the winter heating season, Northern Gas Transport has shown its determination to meet the supply needs of New Hampshire Gas Corporation. Unprecedented demand, long lines at the supply terminals and continuous colder than normal weather along with the customary supply allocations enacted by the pipelines made the 2010-11 heating season especially challenging. However, through almost daily communication with New Hampshire Gas staff regarding arrangements for alternate sources of supply and the management, staff and drivers of Northern Gas Transport, we met those needs.

A continuation of the current working relationship will allow Northern Gas Transport to meet the future needs of New Hampshire Gas Corporation including the provision for a truck load of propane (9000 gallons) daily for a continuous five-day period at any time during the winter heating season. If there is an interruption in normal supply routes, Northern Gas Transport will pull product from the two 30,000 gallon storage facilities leased by New Hampshire Gas Corporation in Greenville, New Hampshire. This provision is conditioned upon absence of forced majeure and New Hampshire Gas Corporation's ability to arrange adequate sources of supply.

Any such continuation of delivery service would be performed in conformance with Northern Gas Transport's commitment to the safety of the public and that of its drivers. We follow all Federal Motor Carrier Safety Rules and Regulations as set forth by the Department of Transportation.

We thank you for your business and the confidence you have placed in us. We look forward to working with you in the future and will do our best to continue the same level of service you have come to expect from all of us at Northern Gas Transport.

Sincerely,

Susan S. Noyes

Vice President and Treasurer Northern Gas Transport, Inc.

# GENERAL RATE SCHEDULE RESIDENTIAL

#### **AVAILABILITY:**

This rate is for general use in locations reached by the company's mains and for which its facilities are adequate.

# **CHARACTER OF SERVICE:**

Manufactured gas or equivalent will be supplied at a heat content value greater than or equal to the heat content value specified on Original Page 21.

#### **DELIVERY RATES:**

# Annual Period November - October

Customer Chai	rge	<del>\$8.60</del> \$9.00	Per Month
First 80	Therms Per Month Therms Per Month Therms Per Month	\$1.1108 \$1.1522	Per Therm
Next 120		\$0.9028 \$0.9442	Per Therm
Over 200		\$0.7532 \$0.7946	Per Therm

# **COST OF GAS RATE:**

All gas sold under this schedule is subject to the applicable per therm cost of gas rate which is calculated on Page 24 for the Winter Period and Page 25 for the Summer Period.

#### METER ACCOUNT CHARGE:

When the company establishes or re-establishes a gas service account for a customer at a meter location, a meter account charge is made in addition to all other charges. The meter account charge is \$20.00 when the visit to the meter location is scheduled at the mutual convenience of the company and the customer. Otherwise, the charge is \$30.00

# TERMS AND CONDITIONS:

Customers will also be charged the applicable revenue surcharge as in effect from time to time.

This rate is net. Meters are read and bills are presented monthly. Bills are due upon presentation.

Amounts not paid prior to the next following meter reading date (normally 30 days from the prior meter reading date) are subject to a late payment charge of one and one-half percent ( $1\frac{1}{2}$ %) per month on the unpaid balance (equivalent to an 18% annual rate).

For each bad check tendered for payment, the company will charge the greater of five dollars (\$5.00) or the actual administrative cost of recovery.
