## DEFAULT ENERGY SERVICE RATE DE

## AVAILABILITY

Subject to the Terms and Conditions of the Tariff of which it is a part, this rate is for energy and capacity in conjunction with the applicable Delivery Service Rate Schedule. It is available to those Customers who are either:

- (1) Not receiving Supplier Service or Self-Supply Service—, except for those Customers who are required to take such service under Alternate Default Energy Service Rate ADE;  
or  
 (2) Terminating Supplier Service due to default of the Supplier, if the price under this rate at the time of such termination is lower than the price under Alternate Default Energy Service Rate ADE.

In addition, renewable service options are available to Customers who are not enrolled in the Residential Electric Assistance Program Rate EAP and have not been approved to receive electric service payment assistance through the Fuel Assistance Program administered by a Community Action Agency.

Notwithstanding any other Tariff provision or Special Contract terms, no discount shall be applied to this rate.

## RATE PER MONTH

Per Kilowatt-Hour

Energy Charge

9X.54XX¢

## RENEWABLE SERVICE OPTIONS

The Company will purchase and retire a sufficient number of new renewable generation resource certificates (“Certificate”) to match the kilowatt-hour usage associated with the Customers enrolled in a renewable service option. A Certificate represents one thousand kilowatt-hours of electricity generated by a generation resource physically located in New England that is certified by the Commission as a Class I or Class II generation resource under the New Hampshire Electric Renewable Portfolio Standard or is capable of earning certification under the New Hampshire Renewable Portfolio Standard. The Company is not required to purchase Certificates simultaneously with Customer usage. Certificates supporting the renewable service options under this rate schedule will be acquired by the Company such that up to 30% of one calendar year’s Certificate requirements could be satisfied with Certificates produced in either of the previous two calendar years or during the first quarter of the subsequent calendar year.

ALTERNATE DEFAULT ENERGY SERVICE RATE ADE

AVAILABILITY

Subject to the Terms and Conditions of the Tariff of which it is a part, this rate is for energy and capacity in conjunction with the applicable Delivery Service Rate Schedule. It is available to Customers who are receiving Delivery Service under Primary General Delivery Service Rate GV, Large General Delivery Service Rate LG, and Backup Delivery Service Rate B. Service under this rate is mandatory for and only available to Customers who are either:

- (1) Terminating Supplier Service or Self-Supply Service following at least twelve consecutive months of receipt of such service; or
- (2) Terminating Supplier Service due to default of the Supplier, if the price under this rate at the time of such termination is lower than the price under Default Energy Service Rate DE.

Once a Customer terminates Supplier Service or Self-Supply Service as described above, any energy and capacity service taken from the Company during the next twelve months must be taken under this rate, unless this rate is temporarily closed. Notwithstanding the availability requirements specified in (1) and (2) above, in the event of a temporary closure of this rate, any Customer returning to energy and capacity service from the Company during the period that this rate is closed must take such service under Default Energy Service Rate DE. Once this rate is re-opened, such Customers will be transferred to service hereunder. Service under Default Energy Service Rate DE during the period that this rate is closed shall be deemed to be part of the twelve month period described above.

By the 15<sup>th</sup> day of each month, the Company will file with the Commission the Company's revised projections of marginal costs for the remaining months of the current annual period. Such revised projections will then be compared to the original projections of marginal costs used to determine the currently-effective price under this rate. This rate shall be closed to new Customers as of the first day of the next succeeding month if such revised projections exceed the original projections by at least seventy-five percent of the amount of the adder used to determine the currently-effective price under this rate. Upon closure, this rate will only be available to Customers who are receiving service hereunder at that time and who continuously receive service hereunder during the period of closure.

This rate shall be re-opened if the Company's subsequent monthly filings with the Commission show that its revised projections as compared to the original projections are within seventy-five percent of the amount of the adder used to determine the currently-effective price under this rate. This rate shall also be re-opened if the Commission approves an adjustment to the price under this rate.

Notwithstanding any other Tariff provision or Special Contract terms, no discount shall be applied to this rate.

## RENEWABLE SERVICE OPTIONS

The Company will purchase and retire a sufficient number of new renewable generation resource certificates ("Certificate") to match the kilowatt-hour usage associated with the Customers enrolled in a renewable service option.

A Certificate represents one thousand kilowatt-hours of electricity generated by a generation resource physically located in New England that is certified by the Commission as a Class I or Class II generation resource under the New Hampshire Electric Renewable Portfolio Standard or is capable of earning certification under the New Hampshire Renewable Portfolio Standard. The Company is not required to purchase Certificates simultaneously with Customer usage. Certificates supporting the renewable service options under this rate schedule will be acquired by the Company such that up to 30% of one calendar year's Certificate requirements could be satisfied with Certificates produced in either of the previous two calendar years or during the first quarter of the subsequent calendar year.

- |                               |   |  |
|-------------------------------|---|--|
| 100% Renewable Service Option | - | The Company will purchase Certificates to match a Customer's total kilowatt-hour usage.        |
| 50% Renewable Service Option  | - | The Company will purchase Certificates to match 50% of a Customer's total kilowatt-hour usage. |
| 25% Renewable Service Option  | - | The Company will purchase Certificates to match 25% of a Customer's total kilowatt-hour usage. |

The Company will use reasonable efforts to purchase Certificates, but does not guarantee the availability of Certificates. In the event Certificates are not available or cannot be purchased at a reasonable cost, the Company shall make a payment to the Renewable Energy Fund created pursuant to the New Hampshire Electric Renewable Portfolio Standard in lieu of purchasing Certificates.

Title: President and Chief Operating Officer

Beginning in 2011 the Company will submit a report to the Commission annually by July 1st to document the number of Certificates purchased and retired by the Company on behalf of Customers receiving service under the renewable service options during the preceding calendar year.

The Customer must notify the Company to initiate service under a renewable service option. In the event the Company can process the Customer request to initiate service prior to the Customer's next regularly scheduled meter read date, the next bill rendered by the Company shall include a charge for the renewable service option chosen by the Customer. Otherwise, the subsequent bill rendered by the Company shall include a charge for the renewable service option chosen by the Customer. The Company shall confirm Customer acceptance of the date that service will be initiated under a renewable service option, i.e. either the most recent meter read date or the next subsequent meter read date.

The Customer must notify the Company to discontinue service under a renewable service option. In the event the Company can process the Customer request to discontinue such service prior to the Customer's next regularly scheduled meter read date, the next bill rendered by the Company shall not include a charge for the renewable service option. Otherwise, the subsequent bill rendered by the Company shall not include a charge for the renewable service option.

#### RATE PER MONTH - RENEWABLE SERVICE OPTIONS

100% Renewable Service Option Charge:	5.500¢ per kilowatt-hour in addition to the Energy Charge
50% Renewable Service Option Charge:	2.750¢ per kilowatt-hour in addition to the Energy Charge
25% Renewable Service Option Charge:	1.375¢ per kilowatt-hour in addition to the Energy Charge
