Sansoucy provides valuation, consulting and engineering services to clients throughout the United States. The firm's two primary services are 1) the valuation of public utility infrastructure, energy projects, and complex industrial properties, and 2) consultation services on energy and regulatory matters involving the public and private utility sector in the United States.

2. Specifically, Sansoucy has an interest in intervening in this proceeding as it is likely that a number of the tax bills related to the proceeding were based on valuations prepared by Sansoucy for his client towns and cities in New Hampshire.
