Karen,

I checked with our staff attorney about the most efficient way to proceed.

If you file amended tariffs with the deadline date of May 25 and the tariff effective date of April 25, Staff will recommend that the Commission approve them on that basis.

Thank you,

Michael,

I think that is a reasonable request. We can change the tariff for all the TDS companies in New Hampshire to May 25, 2012 for the initial window time for the Customer to furnish an initial PVUC factor.

Subject: New Hampshire Tariffs for VoIP/PSTN traffic

Karen,

I have been reviewing the March 26, 2012 tariff filings for the TDS companies in New Hampshire.

The provisions appear reasonable with one exception: the initial time window for the Customer to furnish an initial PVUC factor (2.3.11(C)(4)(a)).

The tariff is filed for effect on April 25, 2012, but the deadline for the initial Customer filing – which determines treatment of traffic for Dec. 29, 2011 through June 2012 - is April 15, 2012. That doesn't seem reasonable.

Would you consider revising this to provide a minimum window of 30 days following the tariff becoming effective – that is, changing the deadline to May 25, 2012 or later?

Thank you,

Michael Ladam
