Subject: Docket # DG13-086

To Whom It May Concern:

Two days ago, I registered a public comment detailing reasons why the proposed increase by Unitil should be rejected. It is not beyond the realm of possibility that a reader might get the impression that it was "just one man's opinion" and thus to be deprecated or ignored. On the heels of my note, date released yesterday by no less an authority than the St. Louis Federal Reserve Bank backs my assertion that the economy would be severely burdened by this increase. You can find information on this at <http://blogs.wsj.com/economics/2013/05/30/households-net-worth-still-faces-long-road-to-recovery/>

Thank you for your time and attention.
