Re: DE 13-095, Alan J. Mazzola and DE 13-096, Shane Robinson
Solar Farm Bank, LLC's Certification Applications for Class II New Hampshire
Renewable Energy Certificate (REC) Eligibility Pursuant to RSA 362-F

Dear Mr. Hirsh:

On April 1, 2013, and April 3, 2013, Solar Farm Bank submitted applications on behalf of Alan J. Mazzola and Shane Robinson, respectively, requesting that the Commission grant approval of photovoltaic (PV) facilities at each of these locations to produce Class II, Renewable Energy Certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Certification of these facilities will enable Solar Farm Bank to add these facilities to its aggregation pursuant to Puc 2506.01 and recognized by the Generation Information System (GIS) under NON 35889.

Staff has reviewed the Mazzola and Robinson applications and has recommended approval of the above-named applicants' photovoltaic arrays as eligible to be aggregated by the Solar Farm Bank for Class II RECs effective April 1, 2013 for Mazzola and April 3, 2013 for Robinson.

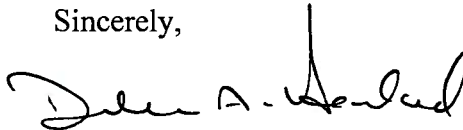

Since these facilities are customer-sited sources, the output is not recorded in the New England Power Pool Market Settlement System and, as a result must be monitored and verified by an independent monitor. The applications state that Paul Button, Energy Audits Unlimited, will monitor the facilities' output pursuant to N.H. Code of Administrative Rules Puc 2505.08 and 2505.09. Mr. Button will report these facilities' total output annually to the customer and the Commission as part of the Solar Farm Bank's Class II aggregation.

The details for these facilities are listed in the following table.

Commission Assigned Docket #	Facility Owner	Facility Location	Total MW listed in application	Effective Date to Produce RECs	NH Certification Code
DE 13-095	Mazzola	Silver Lake	0.012	04-01-13	NH-II-13-031
DE 13-096	Robinson	Mason	0.007	04-03-13	NH-II-13-032

The Commission has determined that Solar Farm Bank has provided all the information necessary to demonstrate these facilities' eligibility for certification and hereby certifies the Mazzola, and Robinson photovoltaic arrays as eligible to be aggregated by the Solar Farm Bank for Class II RECs effective April 1, 2013 and April 3, 2013 respectively.

Sincerely,

Debra A. Howland
