DW 13-126, Pennichuck East Utility

I want to continue to protest strongly ANY rate increase for water charges by Pennichuck. Our water bills in Locke Lake Colony are excessive right now and any further increases will lower property values and be a continued hardship on the consumers. If this increase is allowed, where will it stop? We won't be able to afford to get water and because of Association rules, we are not allowed to have our own wells, so we are at their mercy!

Please inform the members of the Public Utilities Commission to STOP this increase and not allow any further increases! In my opinion, the rates should be LOWERED if anything!
Thank you,

Dorothy A. Hart
