RE: Petition of Hampstead Area Water Company, Inc. for a water system extension to service homes along Emery Drive, in Atkinson, NH.

Dear Ms. Howland:

Please be advised that the Atkinson Selectmen have been notified of the proposed petition to acquire and operate a water system extension to serve the along Emery Drive, located in Atkinson, New Hampshire, which will consist of up to 30 homes, due to Dioxane contamination of the individual water wells of these homes and to franchise a limited area in our town.

We have been informed that the purpose of the franchise area will be to serve Dioxane contamination site, along Emery Drive in Atkinson and to serve an area of Atkinson east of Route 121, as there are several large tracts of land that are developable and the Company has also had numerous requests to provide service to homeowners in that area. We have been provided a map showing this.

Also, there will be a total of 6 hydrants installed in the Emery Drive area. The annual cost charged by the Company to the Town for these hydrants is \$200 per hydrant. The total cost per annum of these new hydrants will be \$1,200. We have been provided a copy of the tariff page allowing this charge.

Our address is 21 Academy Avenue, Atkinson, New Hampshire 03811, and our telephone number is 603-362-5266.
