Re: April 2015 monthly cost of energy over/under report (DG 14 – 233)

Dear Ms. Howland,

Enclosed is the April 2015 over/under report. The April 2015 report is hereby filed to reflect the actual fuel costs from November 2014 through March 2015 and projected costs of April 2015 through October 2015.

There is an increase of just under 5% in expected overall monthly steam sales and a 9% increase of anticipated fuel cost since the beginning of the COE year (Nov 2014). As a result, the enclosed January report reflects a COE end of year under-collection of approximately \$138,005. However because this under-collection is little less than 4% of the overall expected fuel costs for the year and all of the costs for January through March 2015 have not been fully reconciled, we are not adjusting the COE rate at this time.

The April 2015 tariff is \$26.10/mlb in accordance with the 62nd revised page 11 filed with the February report and the May 2015 rate will remain unchanged at \$26.10.

If there are any questions please call me.

Yours Truly,

Mark E. Saltsman
 Vice President
