Re: September 2015 monthly cost of energy over/under report (DG 14 – 233)

Dear Ms. Howland,

Enclosed is the September 2015 over/under report. The September 2015 report is hereby filed to reflect the actual fuel costs from November 2014 through August 2015 and projected costs of September 2015 and October 2015.

There wasn't a significant change in anticipated steam sales nor fuel costs from the August 2015 report. The forecasted under-collection is \$14,801. Because this under-collection is less than 1% of the overall expected fuel costs for the year and all of the costs for January through August 2015 have not been fully reconciled, we are not adjusting the COE rate at this time.

The September 2015 tariff is \$26.10/mlb in accordance with the 62nd revised page 11 filed with the February report and the October 2015 rate will remain unchanged at \$26.10.

If there are any questions please call me.

Yours Truly,

Mark E. Saltsman
Vice President
