Re: October 2015 monthly cost of energy over/under report (DG 14 – 233)

Dear Ms. Howland,

Enclosed is the October 2015 over/under report. The October 2015 report is hereby filed to reflect the actual fuel costs from November 2014 through September 2015 and projected costs for October 2015.

There was not a significant change in the anticipated steam sales or in fuel costs from the September 2015 report. A minor correction was made to the previously reported August 2015 revenues that were reported incorrectly in the September 2015 report. The forecasted under-collection is \$10,061. Because this under-collection is less than 1% of the overall expected fuel costs for the year and all of the costs for January through September 2015 have not been fully reconciled, we are not adjusting the COE rate at this time.

The October 2015 tariff is \$26.10/mlb in accordance with the 62nd revised page 11 filed with the February report and the November 2015 rate is anticipated to be \$25.22 in accordance with the COE filing DG 15-377.

If there are any questions please call me.

Yours Truly,

Mark E. Saltsman
Vice President
