Subject: Recommendation regarding PSNH request for increase in rates

NHPUC 16DEC14PM8:14

This is to refute the request of PSNH's proposed increase of rates due to increased fuel costs. Fuel costs have gone down! There should be a rate decrease! I recommend that the rates stay the same. Cost per barrel of oil are less than \$60 per barrel. They were higher than \$100 per barrel recently. Rates should stay the same or even go down! Scott Gessis, 9 Rowland St., Somersworth, NH 03878 email @ sgessis@aol.com or phone at 692-0789.
