Subject: I oppose Liberty Utilities LNG Depot in Lebanon - DG-16-852

Dear Director Howland,

I am writing to ask the PUC to say NO to the LNG Depot proposed for Lebanon (DG-16-852). Building new infrastructure for a fossil fuel, especially potentially a fracked fossil fuel, is just a major step backwards. We should be supporting renewables, and having this pipeline gas available will just make moves towards renewables happen more slowly, while continuing to support the negative effects of fossil fuels to our climate and environment.

I oppose this pipeline system and depot.
