Re: Liberty Utilities

DG 16-852

The pipeline is not NH. It is not the
preservation of our environment. It is
NOT for us to supply power to neighboring
states. No pipeline!

Dir. Howland:

If you wouldn't have it under
your house, why would I want it
under mine?

Solar & wind is the way to go!

Re: DG 16-852

I strongly oppose this pipeline!
We have too much traffic congestion
on 12-A already. Lebanon is
densely populated, having the
gas storage here is a public safety
issue. AND - we want a renewable
energy future not more fossil fuels!

Re: DG 16-852

I oppose the pipeline.
There are too many risks
to the environment.

We need to move to green
energy - Solar and air/wind.
Not tourism.

Re: DG 16-852

I oppose the pipeline as a public
safety risk. Leaks and explosions
are well documented and I
don't want that in our state.

Re: DG 16-852

There is no need for more
support of fossil fuel solutions
Time to commit to 100%
renewable energy & pass
regulations for it to come to
pass.
