VERIZON NEW HAMPSHIRE/AMERIVISION COMMUNICATIONS, INC. d/b/a LifeLine Communications

Order Nisi Approving Interconnection Agreement

O R D E R N O. 24,004

June 28, 2002

On May 17, 2002, Verizon New England d/b/a Verizon New Hampshire and AmeriVision Communications, Inc. d/b/a LifeLine Communications (LifeLine) jointly filed with the New Hampshire Public Utilities Commission (Commission) a negotiated Interconnection Agreement (Agreement). The Agreement was filed for approval pursuant to section 252(e) of the Telecommunications Act of 1996 (TAct), 47 U.S.C. '252(e).

On April 29, 2002, Amerivision filed a petition seeking authority to provide competitive local exchange carrier (CLEC) services within the state of New Hampshire. That petition has been assigned Docket No. DT 02-085 and is being reviewed by the Commission Staff (Staff).

This Agreement is a comprehensive set of terms and conditions that will facilitate the provisioning of telecommunications service by LifeLine as a CLEC in New Hampshire. The initial term of the Agreement expires on May 7, 2004. The

Agreement will remain in effect beyond its scheduled termination absent 90 days written notice by either party.

This Agreement provides, <u>inter alia</u>, for transmission /routing of exchange service traffic and exchange access traffic, transmission/termination of other types of traffic and joint network configuration. It further provides for unbundled access, resale, co-location, number portability, dialing parity, access to rights-of-way, access to data bases, and directory assistance service. The parties will exchange technical and traffic information which will be kept proprietary; each party will maintain facilities within its own network and will not interfere with the other party's systems.

The parties agree to jointly engineer, plan and operate a diverse transmission system with which they will interconnect their respective networks. The Agreement specifies the designation of interconnection points, provides for a joint grooming plan, and provides for the physical interface of facilities.

The interoffice facilities are priced on an unbundled basis to allow for use with other unbundled network elements, thus creating numerous facilities-based and/or resale options to LifeLine in the provisioning of exchange and exchange access services. The Agreement also includes detailed unbundling of local

OT 02-096 -3-

outside plant and central office facilities that would allow

LifeLine to provide digital and other high-tech services without

extensive revisions to the Agreement.

Prices in this filing are virtually the same as those in previously approved non-cellular interconnection agreements adopted in New Hampshire for the services/elements that are common. Staff points out that the TAct does not require that a telecommunications company sell each service/element for the same price or terms to each requesting party.

The Staff has recommended approval of the Agreement between LifeLine and Verizon based upon a review of the petition and the Agreement.

Section 252(e)(2)(A) of the TAct requires us to approve a negotiated interconnection agreement unless we determine that the Agreement or some portion of it Adiscriminates against a telecommunications carrier not a party to the agreement® or that the implementation of the Agreement would not be consistent with Athe public interest, convenience, and necessity®. 47 U.S.C. '252(e)(2)(A). We have reviewed the filing and find that approval is warranted according to this standard. The Agreement does not appear to be discriminatory to any carrier not a party to the

OT 02-096 -4-

negotiations and is consistent with the public interest, convenience, and necessity. We will approve it on a <u>nisi</u> basis in order to provide any interested party an opportunity to submit comments or request a hearing.

We note that LifeLine may purchase services or unbundled elements that may not be covered in this Interconnection Agreement from Verizons Statement of Generally Available Terms (SGAT) and its subsequent revisions that are in effect per Order No. 22,692, subject to continued review pursuant to Section 252(f)(4) of the TAct.

In order to promote the continued growth of competitive telecommunications services in New Hampshire, we will require LifeLine to comply with our notice requirements regarding AFresh Look@ opportunities. The recommended method for giving notice is to provide the Commission with a contemporaneous copy of the Confirmation of Code Activation form which is used to notify the North American Numbering Code Administrator.

As new competitors enter the telecommunications market, we recognize that New Hampshire=s 603 area code encounters constantly increasing demand. Accordingly, we will require that LifeLine request and use numbers responsibly and conservatively,

OT 02-096 -5-

and invite LifeLine to explore alternative mechanisms to use existing numbers as efficiently as possible. In approving this Agreement, we require LifeLine to comply with our orders on number conservation including Order No. 23,385 issued January 7, 2000, and Order No. 23,392 issued January 27, 2000, as well as further orders issued by the Commission concerning this matter.

Based upon the foregoing, it is hereby

ORDERED ${\underline{\rm NISI}}$, that the Interconnection Agreement between AmeriVision Communications, Inc. and Verizon New Hampshire is APPROVED; and it is

FURTHER ORDERED, that LifeLine is required to comply with our Order No. 23,385 issued January 7, 2000, Order No. 23,392 issued January 27, 2000, and further orders issued by the Commission concerning number conservation; and it is

FURTHER ORDERED, that LifeLine is prohibited from placing any orders under this Agreement and from otherwise doing business in New Hampshire until such time as LifeLine has complied with all requirements of applicable federal and state law or regulation; and it is

FURTHER ORDERED, that LifeLine will notify the Commission within ten days of making their first facility-based commercial

OT 02-096 -6-

call in any exchange that has not already been opened to a "Fresh Look@ opportunity as ordered in Docket DE 96-420; and it is

FURTHER ORDERED, that the Petitioner shall cause a copy of this Order <u>Nisi</u> to be published once in a statewide newspaper of general circulation, such publication to be no later than July 8, 2002 and to be documented by affidavit filed with this office on or before July 22, 2002; and it is

FURTHER ORDERED, that all persons interested in responding to this petition be notified that they may submit their comments or file a written request for a hearing on this matter before the Commission no later than July 15, 2002; and it is

FURTHER ORDERED, that this Order <u>Nisi</u> shall be effective July 29, 2002 unless the Petitioner fails to satisfy the publication obligation set forth above or the Commission provides otherwise in a supplemental order issued prior to the effective date.

By order of the Public Utilities Commission of New Hampshire this twenty-eighth day of June, 2002.

Thomas B. Getz Susan S. Geiger Nancy Brockway
Chairman Commissioner Commissioner
