Dear Ms. Howland:

I'm sorry that there has been a lot of confusion regarding North Hampton's interveners status in the above referenced action. The North Hampton Water Commission has no intention on speaking before the PUC, or taking any action, related to this issue. We just want to attend the hearings to learn how this process is done.

Please contact me at your earliest convenience.

Best regards,

Henry Fuller  
Chairman  
North Hampton Water Commission
