**MOTION FOR CONFIDENTIAL TREATMENT**

Granite State Electric Company d/b/a National Grid (“National Grid”) respectfully requests that the New Hampshire Public Utilities Commission (the “Commission”) grant a protective order for certain confidential information, consistent with R.S.A. 91-A:5(IV) and N.H. Admin. Rules, Puc 203.08. Specifically, National Grid requests that the Commission issue an order requiring confidential treatment for material contained in National Grid’s Default Service Indicative Bid Summary (the “Summary”).

In support of this motion, National Grid states the following:

1. The Summary contains the following information and material: a chart illustrating indicative bids for the most recent procurement period for large customers in dollars per megawatt-hour, both inclusive and exclusive of capacity costs. The Summary also includes a chart illustrating indicative bids for the most recent procurement period for large customers in cents per kilowatt-hour, both inclusive and exclusive of capacity costs. In addition, the Summary includes a chart comparing the current rates through January 31, 2007 on a cents per kilowatt-hour basis to average indicative rates including capacity costs. The Summary also identifies the names of the bidders through a bidder key.
2. National Grid seeks protection from public disclosure of all of the information contained in the Summary because it is confidential commercial and financial information. The bidding suppliers’ information, including bid price and non-price terms, and other information provided to National Grid in response to the RFP, has been provided to National Grid pursuant to express understandings that this material will be maintained as confidential. National Grid submits that suppliers will be reluctant to participate in future solicitations by National Grid, and may completely refuse to participate in this market, if their confidential bid information is publicly disclosed. Disclosure of this information may also detrimentally impact upon such suppliers’ ability to participate in competitive solicitations in other markets within the northeast region as well.
3. R.S.A. 91-A:5(IV) expressly exempts from public disclosure requirements of the Right-to-Know law, R.S.A. 91-A, any records pertaining to “confidential, commercial

or financial information.” The Commission’s rule on confidential treatment of public records, Puc 203.08, also recognizes that confidential commercial or financial information may be appropriately protected from public disclosure pursuant to an order of the Commission.

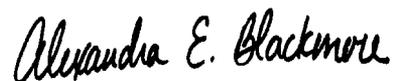

4. National Grid’s request for a protective order is not inconsistent with the public disclosure requirements of the Right-to-Know law, R.S.A. 91-A. This statute generally provides open access to public records, but the Commission has recognized that the determination whether to disclose confidential information involves a balancing of the public’s interest in full disclosure with the countervailing commercial or private interests for non-disclosure. In this instance, the interests in support of a protective order, in addition to those discussed above, include as well the interest of the State in promoting a competitive market for electricity, as expressed in R.S.A. 374-F:1.

WHEREFORE, National Grid respectfully requests that the Commission issue an order protecting the confidential information specified herein from public disclosure.

Respectfully submitted,

Granite State Electric Company d/b/a  
National Grid
