

### Application for authority to acquire new NH Class II renewable energy certificates

(a) The name and address of the applicant;

**Michael Thoreson**  
**Commissioner, Department of Public Works**  
**City of Brockton**  
**45 School St**  
**Brockton, Massachusetts 02301**  
**mthoreson@ci.brockton.ma.us**

(b) The location of the facility;

**Grove and East Union St.**  
**Brockton, MA**

(c) The ISO-New England asset identification number: **11925**

(d) The NEPOOL generation information system facility code: **MSS11925**

(e) A description of the facility, including fuel type, gross generation capacity, the initial commercial operation date, and the date it began operation, if different;

**Solar Photovoltaic, 460 kW dc, commercially operational 9/27/06**

(f) If a biomass source, NO<sub>x</sub> and particulate matter emission rates and a description of pollution control equipment or proposed practices for compliance with such requirements; **N/a**

(g) Demonstration that the applicant has all other necessary regulatory approvals, including any reviews, approvals or permits required by the department; **N/a**

(h) Proof that the applicant either has an approved interconnection study on file with the commission or is not required to undertake such a study; **Interconnection agreement attached.**

(i) If a biomass facility, proof that a copy of the completed application has been filed with the department; and **n/a**

(j) Such other information as the applicant may provide to assist in determining the classification of the generating facility.

**The "Brockton Brightfield" solar project is a grid-connected project (not located behind any facility's meter) whose output is sold into NEPOOL through a contract with Constellation Energy. This plant is also qualified for MA New Renewable certificates per the Massachusetts RPS.**

Puc 2505.03 Notification to Generation Information System. Upon certifying a generation facility as eligible to be issued new certificates under this rule, the commission shall provide a copy of such certification to the owner of the generation facility and the administrator of the NEPOOL generation information system.
