RE: Waiver Request to Obtain Growth Numbering Resources in Dover, NH

Dear Ms. Howland:

Enclosed please find documentation from our customer stating their need for a one-thousand block of numbers in Dover, NH. BayRing has not reached the 75 percent utilization threshold in the Dover rate center; however we do not have the resources available to provide one-thousand sequential numbers for this customer as requested.

The purpose of this letter is to seek a waiver in order to be assigned a growth block of numbers in the Dover, NH rate center. As stated by our customer they would like to begin activating these numbers by June 2008. The request for resources has been submitted to the Pooling Administration and the denial from Neustar is enclosed.

Thank you for your consideration. If you have any questions, please do not hesitate to contact me at 603-766-1672, or by email to [jennifer@bayring.com](mailto:jennifer@bayring.com).

Sincerely,

A handwritten signature in cursive that reads 'Jennifer M. Hassen'.
