Concord, NH 03301-2429

Subject: [Docket Number DE 09-012] Request for reinstatement of Renewable Energy Credits

Dear Ms. Howland;

CHI Power Marketing, Inc. hereby formally requests that Renewable Energy Credits ("RECs") generated at the Salmon Falls Hydropower Project during January, February, and March 2010 be reissued in the NEPOOL GIS for use in the New Hampshire Renewable Portfolio Standard. A review of the certificates included in this request is below.

Unfortunately, due to an administrative oversight in our company the RECs generated during this time were not traded or banked within the prescribed trading period. We ask that the New Hampshire Public Utilities Commission give approval to James Webb, NEPOOL GIS Administrator, to reinstate the RECs for use in the New Hampshire RPS compliance market. As you know, the period of time for approving 2010 RECs ends on Wednesday June 15, 2011 and we request a decision be made on or before such date in order to facilitate the transfer of RECs.

Unit ID	Unit Name	Month	Certificate Serial Numbers	Quantity
MSS883	SALMON FALLS HYDRO	2010/1	279654 - 1 to 415	415
MSS883	SALMON FALLS HYDRO	2010/2	279639 - 1 to 112	112
MSS883	SALMON FALLS HYDRO	2010/3	279640 - 1 to 540	540

Thank you for your time and prompt attention in this manner. If at any time during your review you have any questions on the matter please feel free to contact me. Attached you will also find our affidavit certifying that the RECs have not been used for any other purpose other than New Hampshire Renewable Portfolio Standard compliance.

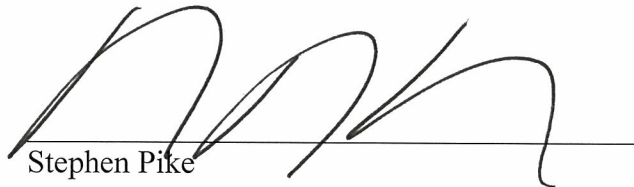

Regards,

ERIC BARREVELD
Energy Markets Supervisor
