Re: DE 09-034, Evolution Markets on behalf of Aldi, Inc.  
Certification Application for Class II Eligibility pursuant to RSA 362-F

Dear Ms. Ranade:

On February 24, 2009, Evolution Markets submitted an application on behalf of Aldi, Inc. requesting certification of the Aldi solar photovoltaic facility (Aldi facility) as eligible to produce Class II renewable energy certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed the application and recommended approval noting that the Evolution Markets application was complete on February 24, 2009.

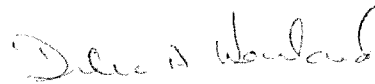

Class II eligibility requires that a facility began operation after January 1, 2006 and that it produces electricity from solar technologies. The application indicates that Aldi, Inc. has installed solar photovoltaic equipment with a gross nameplate capacity of 0.5 megawatts located at 295 Rye Street South Windsor, Connecticut and that the facility began commercial operation on December 31, 2008. The NEPOOL GIS facility code has not yet been obtained. Evolution Markets will provide the facility code to the Commission as soon as it is obtained from the GIS administrator. The ISO-NE asset identification number is not applicable as the Aldi facility is a behind-the-meter source.

The Commission has reviewed the Evolution Markets application and determined that it has provided all the necessary information to demonstrate that the Aldi facility is eligible for certification as a Class II facility. Therefore, the Commission hereby certifies that the Aldi facility is a Class II renewable energy source effective February 24, 2009 and is eligible to be issued New Hampshire Class II renewable energy certificates.

April 8, 2009  
Page two

Attached please find a copy of the notice of this certification provided to the GIS administrator. The New Hampshire Renewable Portfolio Standard certification code for the Aldi solar photovoltaic facility is NH-II-09-017.

Sincerely,

A handwritten signature in cursive script, appearing to read "Debra A. Howland".

Re: DE 09-034 Evolution Markets on behalf of Aldi Inc.  
Certification as a New Hampshire RPS Class II Facility pursuant to RSA 362-F  
New Hampshire Certification Code NH-II-09-017

Dear Mr. Webb:

Please be advised that, pursuant to NH RSA 362-F, the New Hampshire Public Utilities Commission has certified the Aldi solar photovoltaic facility as a Class II renewable energy source effective February 24, 2009. Accordingly, the Aldi facility is eligible to be issued New Hampshire RPS Class II renewable energy certificates.

The Aldi, Inc. has installed solar photovoltaic equipment with a gross nameplate capacity of 0.5 megawatts located at 295 Rye Street, South Windsor, Connecticut. The facility began commercial operation on December 31, 2008. The NEPOOL GIS facility code has not yet been obtained. Evolution Markets will provide that to the Commission as soon as it is obtained from APX. The ISO-NE asset identification number is not applicable as the Aldi facility is a behind-the-meter source.

Sincerely,

A handwritten signature in dark ink, appearing to read "Debra A. Howland". The signature is written in a cursive style.
