Re: DE 09-084, WM Renewable Energy, L.L.C.
Certification Application for Class III Eligibility of its Turnkey II Landfill facility
Pursuant to RSA 362-F

Dear Ms. Glenn:

On April 30, 2009, WM Renewable Energy, L.L.C. (WMRE) submitted an application requesting certification of the Turnkey II landfill methane gas facility (Turnkey II facility) as eligible to produce Class III renewable energy certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed the application and recommended approval noting that the WMRE application was complete on June 17, 2009.

Class III eligibility requires a facility to have begun the production of electricity prior to January 1, 2006 using either eligible biomass technologies having a gross nameplate capacity of 25 megawatts or less or methane gas. The application indicates that the Turnkey II facility has a gross nameplate capacity of 6.6 megawatts and entered commercial operation in January 1998. The facility is located at 30 Rochester Neck Road, Rochester, New Hampshire. The facility's NEPOOL generation information system (GIS) facility code is MSS715.

Based on Staff's recommendation, the Commission has determined that WMRE has provided all the necessary information to demonstrate that the Turnkey II facility is eligible for certification as a Class III facility. Therefore, the Commission hereby certifies that the Turnkey II facility is a Class III renewable energy source effective June 17, 2009 and is eligible to be issued New Hampshire Class III renewable energy certificates.

July 20, 2009
Page two

Attached please find a copy of the notice of this certification provided to the GIS administrator. The New Hampshire Renewable Portfolio Standard certification code for the Turnkey II landfill methane gas facility is NH-III-09-023.

Sincerely,

Debra A. Howland
Executive Director

Re: DE 09-084, WM Renewable Energy, L.L.C.
Certification of its Turnkey II Landfill facility as a New Hampshire RPS Class III facility
Pursuant to RSA 362-F
New Hampshire Certification Code NH-III-09-023

Dear Mr. Webb:

Please be advised that, pursuant to NH RSA 362-F, the New Hampshire Public Utilities Commission has certified WM Renewable Energy (WMRE)'s Turnkey II landfill methane gas facility as a Class III renewable energy source effective June 17, 2009. Accordingly, WMRE's Turnkey II facility is eligible to be issued New Hampshire Class III renewable energy certificates.

The Turnkey II facility has a gross nameplate capacity of 6.6 megawatts, is powered by landfill methane gas and began commercial operation in January 1998. The facility is located at 30 Rochester Neck Road, Rochester, New Hampshire. The facility's NEPOOL generation information system facility code is MSS715. The New Hampshire RPS certification code is NH-III-09-023.

Sincerely,

A handwritten signature in blue ink that reads "Debra A. Howland".
