A handwritten signature in black ink, appearing to be 'JG', is located to the right of the 'FROM' field. The signature is written in a cursive style.

On June 24, 2009, Union Communications submitted a tariff filing to revise the language and add rates for the introduction of its Primary Rate Interface service in NHPUC Tariff No. 7. The arrangement uses the Integrated Services Digital Network or ISDN architecture to provide the customer with the capability to transmit voice and data simultaneously over the same digital facility. Staff, based on its examination, recommends allowing the change to go into effect by operation of law.
