Re: DE 09-228, DE 09-229 and DE 09-230, Boston Community Capital Solar Energy Advantage, Inc.
Certification Applications for Class II Eligibility Pursuant to RSA 362-F

Dear Mr. Unger:

On November 17, 2009, you submitted applications on behalf of Boston Community Capital Solar Energy Advantage, Inc. (BCC) requesting certification of three customer-sited rooftop photovoltaic facilities (BCC facilities) as eligible to produce Class II Renewable Energy Certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed your applications and recommended approval noting that the applications were complete on November 17, 2009.

Class II eligibility requires that a facility began operation after January 1, 2006 and that it produces electricity from solar technologies. The applications indicate that the facilities are customer-sited photovoltaic rooftop arrays located in Hopkinton, Massachusetts and the facilities began operation in 2009. The details for each facility are listed in the following table:

Facility Title	Commission Assigned Docket #	Facility Location	Operation Date	Total kW listed in application (DC Panels)	NH Certification Code
Hopkinton Fire Station	DE 09-228	73 Main St., Hopkinton, MA	November 12, 2009	10.85	NH-II-09-057
Hopkinton Police Station	DE 09-229	74 Main, St., Hopkinton, MA	November 12, 2009	25.2	NH-II-09-058
Hopkinton High School	DE 09-230	90 Hayden Rowe, Hopkinton, MA	October 15, 2009	193.4	NH-II-09-059

The NEPOOL GIS facility codes have not yet been obtained. You are required to provide the facility codes to the Commission as soon as they are obtained from the GIS administrator. The ISO-NE asset identification number is not applicable as the BCC facilities are behind-the-meter sources. Your applications indicate that since the BCC facilities are behind-the-meter sources, PowerDash LLC, as the facilities' independent monitor, will verify and report the facilities' output to the NEPOOL Generation Information System (GIS) pursuant to the GIS Operating Rules.

Based on Staff's recommendation, the Commission has determined that BCC has provided all the necessary information to demonstrate that its facilities are eligible for certification as Class II facilities. Therefore, the Commission hereby certifies the BCC facilities are Class II renewable energy sources effective November 17, 2009 and are eligible to be issued New Hampshire Class II RECs.

Attached please find a copy of the notice of these certifications provided to the GIS administrator. The New Hampshire Renewable Portfolio Standard certification codes for the BCC photovoltaic facilities are listed in the table on the previous page.

Sincerely,

A handwritten signature in black ink, appearing to read "Debra A. Howland". The signature is fluid and cursive, with the first name being the most prominent.

Re: DE 09-228, DE 09-229 and DE 09-230, Boston Community Capital Solar Energy Advantage, Inc.
Certification Applications for Class II Eligibility Pursuant to RSA 362-F
New Hampshire Certification Codes: NH-II-09-057, NH-II-09-058 and NH-II-09-059

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified three customer-sited rooftop photovoltaic facilities owned by Boston Community Capital Solar Energy Advantage, Inc.'s (BCC) as Class II renewable energy sources effective November 17, 2009. Accordingly, the BCC facilities are eligible to be issued New Hampshire Class II Renewable Energy Certificates.

Each facility's size and location are listed in the following table:

Facility Title	Commission Assigned Docket #	Facility Location	Operation Date	Total kW listed in app. (DC Panels)	NH Certification Code
Hopkinton Fire Station	DE 09-228	73 Main St., Hopkinton, MA	November 12, 2009	10.85	NH-II-09-057
Hopkinton Police Station	DE 09-229	74 Main, St., Hopkinton, MA	November 12, 2009	25.2	NH-II-09-058
Hopkinton High School	DE 09-230	90 Hayden Rowe, Hopkinton, MA	October 15, 2009	193.4	NH-II-09-059

The NEPOOL GIS facility code for each facility has not yet been obtained. BCC will provide both facility codes to the Commission as soon as they are obtained from APX. The ISO-NE asset identification numbers are not applicable as these facilities are behind-the-meter sources. The New Hampshire certification code for each facility is listed in the above table.

Sincerely,

Debra A. Howland
Executive Director
