RE: DE 10-060 Customer Sited Renewable Sources Independent Monitor Fourth Quarter 2011
 Aggregation Report

DE 09-006 Annual Monitoring Report for 2011

Dear Ms. Howland,

Please find enclosed an original and 8 copies of two reports. First is New Hampshire Electric Cooperative, Inc.'s (NHEC's) report of requested Customer Sited Renewable Sources aggregation for the fourth quarter of 2011 in accordance with the Commission's Aggregation approval of April 9, 2010. It is NHEC's intention to report this generation in the NEPOOL Generation Information System for fourth quarter 2011.

As shown in the report, the total capacity of the Class II aggregated sources is approximately 342 kW. NHEC requests that the Commission please update the NEPOOL GIS Administrator regarding this approved capacity.

The second report is NHEC's annual monitoring report for the calendar year 2011 in accordance with the Commission's approval of NHEC as an independent monitor.

In preparing these reports, NHEC recognized a few errors on prior quarter Aggregation Reports. Those errors are corrected in the annual totals shown on the Monitoring Report and will be corrected in the NEPOOL GIS for fourth quarter.

If you should have any questions or need additional information, please contact either of us at manypennyh@nhec.com or 603-536-8827 or Scott McNeil at mcneils@nhec.com or 603-536-8608.

Sincerely,

Heather Manypenny
 Power Resources Executive

Scott McNeil
 Field Administrator
