

Dear Ms. Howland DW 10-091

This letter is regarding
Docket # 10-091. The
request by Pennichuck
Water for a rate increase.

The reason given for the
increase was upkeep and
non-use. Simply raising
rates won't encourage
the use of more water.

In this economy people
have to find money to pay
the bills. The company
seems to have plenty of
money to spare granting
huge pensions to their

CEO's.

It is time for the
customer to be considered.
The customer has to pay the
bills and has to rely on
a budget.

Thank you for taking
the time to read my
letter.

Aurora Mosefski
a retired person who
hasn't seen a raise in
pension or cost of living
in 19 years.
