Re: DE 10-114, Conservation Services Group
Certification Application for Class II Eligibility on behalf of EOS Project
Berkshire Bundle, LLC and Request for Aggregation Pursuant to RSA 362-F

Dear Ms. Stanton:

On April 26, 2010, you submitted an application on behalf of EOS Project Berkshire Bundle, LLC (EOS) requesting that the Commission grant approval of its seven photovoltaic facilities located in Massachusetts to produce Class II Renewable Energy Certificated (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed the application and recommends approval of your request noting that the CSG application was completed on April 26, 2010 in accordance with New Hampshire Code of Administrative Rules Puc 2500.

According to your request, CSG would also like to aggregate these facilities titled the EOS Project Berkshire Bundle Solar Aggregation (Berkshire Aggregation). Your application indicates that these facilities are customer-sited photovoltaic rooftop arrays located in Massachusetts that began operation in 2010. The details for each facility are listed in the table on the following page.

In lieu of using the certification codes assigned by the Commission, CSG would receive a single certification code, thereby permitting the NEPOOL generation information system (NEPOOL GIS) to recognize all of the eligible EOS facilities as a single generator. The NEPOOL GIS would then issue RECs for the Berkshire Aggregation's total monthly output.

According to your letter, CSG has already applied for and received a GIS facility code for the Berkshire Aggregation. The GIS facility code, NON 32917, will allow

CSG's independent monitor, Fat Spaniel Technologies, Inc. (Fat Spaniel) to report the total monthly output of the facilities in lieu of reporting output for each facility.

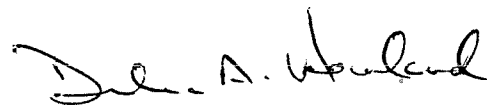

Each facility's New Hampshire certification code and operation date are listed in the following table.

Facility Name	Facility Location	Operation Date	Total kW listed in application (DC Arrays)	NH Certification Code
Bedard Brothers	Cheshire, MA	March 09, 2010	64.0	NH-II-10-050
Berkshire South Regional Community Center	Barrington, MA	March 25, 2010	84.0	NH-II-10-051
Brandeis University	Waltham, MA	March 01, 2010	277.0	NH-II-10-052
Hancock Shaker Village	Hancock, MA	March 09, 2010	89.6	NH-II-10-053
Quality Printing	Pittsfield, MA	February 25, 2010	140.0	NH-II-10-054
Town of West Stockbridge Town Hall	Stockbridge, MA	March 11, 2010	64.0	NH-II-10-055
Wheeler School	Seekonk, MA	March 05, 2010	100.0	NH-II-10-056

Based on Staff's recommendation, the Commission hereby certifies the Berkshire Aggregation as eligible to receive New Hampshire Class II RECs. To ensure that CSG does not receive Class II RECs for output from facilities not approved for Class II eligibility, CSG must report to the Commission the total output associated with the facilities after April 26, 2010. Specifically, CSG must provide each facility's kilowatt-hours (kWh) produced during the relevant quarter, total kWh produced prior to the Commission approval date to produce Class II RECs, and total kWh produced after the Commission approval for Class II RECs. CSG must submit this quarterly data to the Commission before the NEPOOL GIS deadline for reporting customer-sited facility output. For example, for second quarter 2010 data, CSG must submit this data prior to October 10, 2010.

Attached please find a copy of the notice of this certification provided to the GIS administrator. The New Hampshire Renewable Portfolio Standard certification code for the Berkshire Aggregation for use in the NEPOOL-GIS is NH-II-10-057.

Sincerely,

Debra A. Howland
Executive Director

Re: DE 10-114, Certification of Conservation Services Group
EOS Project Berkshire Bundle Solar Aggregation Pursuant to RSA 362-F
New Hampshire Certification Code: NH-II-10-057

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified the Conservation Services Group - EOS Project Berkshire Bundle Solar Aggregation (Berkshire Aggregation) as eligible for Class II Renewable Energy Certificates (RECs). Accordingly, the Berkshire Aggregation is eligible to be issued New Hampshire Class II Renewable Energy Certificates (RECs), effective April 26, 2010, the date on which the Commission awarded New Hampshire Class II REC eligibility for the seven facilities listed in the table on the following page.

For the electricity produced during the second quarter of 2010, CSG can only receive New Hampshire Class II RECs for the output from Class II REC eligible facilities beginning the effective date of each source, April 26, 2010. To ensure that CSG does not receive Class II RECs for output from facilities not approved for Class II eligibility during the second quarter 2010, Fat Spaniel Technologies, Inc. must report to the NEPOOL GIS the total output associated with the facilities after the Commission issued effective date of April 26, 2010. CSG can then receive Class II RECs for the total aggregation for output produced during the third quarter of 2010 and thereafter.

Facility Name	Facility Location	Operation Date	Total kW listed in application (DC Arrays)	NH Certification Code
Bedard Brothers	Cheshire, MA	March 09, 2010	64.0	NH-II-10-050
Berkshire South Regional Community Center	Barrington, MA	March 25, 2010	84.0	NH-II-10-051
Brandeis University	Waltham, MA	March 01, 2010	277.0	NH-II-10-052
Hancock Shaker Village	Hancock, MA	March 09, 2010	89.6	NH-II-10-053
Quality Printing	Pittsfield, MA	February 25, 2010	140.0	NH-II-10-054
Town of West Stockbridge Town Hall	Stockbridge, MA	March 11, 2010	64.0	NH-II-10-055
Wheeler School	Seekonk, MA	March 05, 2010	100.0	NH-II-10-056

The New Hampshire certification code for the Berkshire Aggregation is NH-II-10-057.

Sincerely,

Debra A. Howland
Executive Director
