NH Public Utilities Commission
21 South Fruit Street
Concord, NH 03301-2429

Dear Members of the NH PUC:

USW Local 75 is contacting you today to strongly express our full support of the Power Purchase Agreement (PPA) between Laidlaw Berlin BioPower and Public Service of New Hampshire (PSNH).

Our members are in economic distress due to the loss of their employment. Our members' lack of financial security and the limited job opportunities in the North Country are an enormous concern for us as well as the ripple effect the closure of the Mill has on our community.

The City of Berlin is in desperate financial straits. The partnership of Laidlaw Berlin BioPower and PSNH would securely help the City of Berlin's tax base and the regional economy.

We strongly urge the NH Public Utilities Commission to support this partnership and in turn support our community.

Sincerely,

A handwritten signature in cursive script that reads "Leo Lozier".

Leo Lozier
President
