

Hello Debra,

I am writing to request that 272 RECs generated by 2 separate Tioga Energy facilities in Q2 2012 be reinstated as active in the GIS. The Unit IDs for the two projects are NON 32983 (Club 55) and NON32984 (Club 58). The RECs were not originally banked or transferred due to miscommunication between Tioga Energy and NEPOOL regarding the duration of the Q2 2012 trading period. Tioga Energy has a contract in place for the sale of the 2012 RECs and if the RECs are reinstated Tioga can transfer them to the receiving party immediately.

Please feel free to contact me via phone or email if you have any questions about this issue.

Thank you,

Erik Richardson | Technical Sales Analyst
