ORDER II 25, 1988

2-22-2011

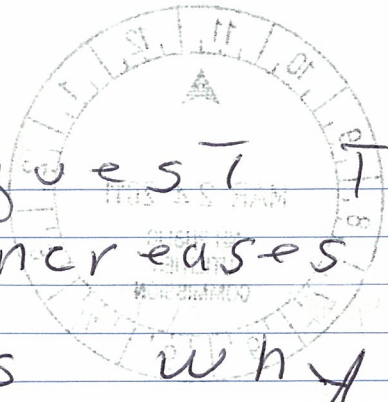

I and my wife lived at 413 Darby Drive in Belmont, NH and this is so unlawful, unjust & unreasonable we already pay a high rate for water & sewer which is at least 100% more than our neighbors pay to Laconia.

85% of our invoice is availability charge and not for water &

sewer usage. Please see attached document EXTRA showing this.

We already pay over \$600.00 per year for water & sewer even if we do not use any water & sewer for a quarter. We paid over \$140.00 per quarter even when we don't use any water & sewer (Gone for six months in the summer)

I also wish to inform you that this new owner has only own the business for a couple of years and the new well & increase storage was done by the previous owners. I strongly recommend you look @ this firm expenditure

We request that these high increases be rejected. This is why the public utilities commission is responsible to determine how unjust & unlawful these requests are.

ALSO the table showing water & sewer is not understandable.
 My ex: Residential Single Family Water 62 per year Sewer -0-

We pay over \$ 600.00 per year.

Thank-you for your review of this really high request based on previous owners investments
