**RE: Merrimack County Telephone Company;  
Add Dedicated Ethernet Service**

Dear Ms. Howland:

Enclosed please find the original and eight (8) copies of the following tariff pages:

- Index**
- Part IV, Section 1**
- Third Revised Sheet 3**
- Third Revised Sheet 1**
- Original Sheets 7 & 8**

The purpose of this filing is to add Dedicated Ethernet Service to the tariff. Dedicated Ethernet Service provides a packet-switched point-to-point arrangement for customers requiring high-band width data applications between their locations. The service is offered based on speeds ranging from 1.5 to 10 Mbps, and on terms ranging from 12 months to 60 months. The arrangement requires a minimum of 2 customer premise locations, but allows multi-location arrangements within the company's local exchanges.

The proposed effective date for this filing is February 14, 2011.

The revenue impact is estimated to be an increase of \$21,600 in the first year of availability. This impact would equate to less than a 1% change in annual revenue associated with the customers subscribing to these packages.

Note: Some of the required supporting documents for this tariff filing are being filed as "confidential" under a separate cover letter. Documents included in the confidential filing include a support narrative of the offering, a revenue impact statement, and a cost support document.
