Note: "Total Calls Answered" is measured from when the call leaves the automatic menu system and enters the queue to be "live answered" by a customer service representative. However, a call that never leaves the automatic menu system is also included in the number of calls for purposes of the monthly and annual reported results.

\*Note: Despite meeting the call answering service level for the month of December, the 12-month rolling average only increased .8% points. Continued focus on exceeding service levels over the next few months will be necessary to raise the rolling 12-month service level. The new hire class completed training in December. We expect to meet/exceed the monthly service level target for the month of January 2015.
