DE 11-221

GRANITE STATE ELECTRIC COMPANY D/B/A NATIONAL GRID

Request to Increase Storm Recovery Adjustment Factor

Order Allowing Increase to Storm Recovery Adjustment Factor

ORDER NO. 25,307

December 28, 2011

Appearances: McLane, Graf, Raulerson & Middleton, P.A. by Steven V. Camerino, Esq. on behalf of Granite State Electric Company d/b/a National Grid; and Suzanne G. Amidon, Esq. on behalf of Commission Staff.

I. PROCEDURAL HISTORY

On September 30, 2011, Granite State Electric Company d/b/a National Grid (National Grid or Company) filed testimony and schedules, including proposed tariff pages, in support of a request to adjust its Storm Recovery Adjustment (SRA) Factor pursuant to the SRA provision in the Company's tariff. The Company's filing requested a temporary increase to the SRA Factor from the current rate of \$0.00040 per kilowatt hour (kWh) to \$0.00223 per kWh for a period of five years from January 1, 2012 through December 31, 2016. Effective with service rendered on and after January 1, 2017, the Company proposed that the SRA Factor be reduced to \$0.00127 per kWh. National Grid said that the temporary increase through December 31, 2016 is intended to recover sufficient revenues to eliminate the existing Storm Fund deficit over a five-year period while the permanent increase in the SRA Factor is intended to address the fact that the level of funding for the Storm Fund currently included in base rates is insufficient to cover the ongoing costs of periodic events qualifying for reimbursement from the Storm Fund. For residential
