

PARTITION

For the National Grid Company to consider the request of the undersigned people. To bring your Electric Company to the small section of Willow Brook Road, Ladeau Road, Porter Road and Jenney Lane Road in Plainfield that is currently serviced by NH Electric Co-op. The National grid Company already services most of this area. The NH Electric company rates have gotten out of control and the loss of power for large amounts of time has become ridiculous as well. Please listen to the residents of this area and help us have the power we deserve at a rate we can live with!
