*Summary*

On February 06, 2012, Draker Laboratories submitted an application requesting the Commission grant their organization independent monitor status pursuant to the New Hampshire Code of Administrative Rules Puc 2505.09. On February 19, 2012 staff informed Draker that Puc 2509.09 addresses certification of an individual and requested that Draker provide the Puc with a separate application for each of the individuals at Draker that would be performing the tasks required of an independent monitor along with their qualifications. Draker did not provide a substantive response to Staff's request.

Staff recommends this docket be closed without prejudice as the Commission has not received subsequent applicant information.
