Dear Public Utilities Comm.

I am furious to think that Aquarian Water Co. is asking (for yet) another ^{increase} on our water rates. As it is - we pay 290⁰⁰ per Cottage before we get 1 Tablespoon of water! I have 5 (Summer only) cottages + a store. That is \$1,740⁰⁰ before we make 1 dime. This should be repealed. Another raise in rates (for Aquarian Water) is unbelievable. You on the Commission are not concerned about the people struggling to pay. Someone needs to say NO. Count me as one of these people.

Very sincerely,

Carole Waller
