

6/28/13

Public Utilities Commission,

NHPUC JUL01'13 AM11:23

Dear Commission,

I am writing concerning your decision to allow AQUARION WATER COMPANY to impose both a temporary rate increase as well as a "WICA" charge of 5.2733%, which I feel is a very high extra charge.

The costs of water in Hampton is much higher than surrounding communities and I would hope that the Commission considers this when granting rate increases and allowing "extra charges" to go on our bills.

Thank you for your consideration.

Sincerely,  
David Drolet
