Re: DE 12-140, Brookfield Energy Marketing Inc.  
Granite Reliable Power LLC Application for Class I Certification for New  
Hampshire Renewable Energy Certificates Pursuant to RSA 362-F for the Granite  
Reliable Wind Project

Dear Mr. Faulds:

On May 25, 2012, the PUC received an application from Granite Reliable Power LLC requesting that the Granite Reliable Wind Project's electrical production be granted eligibility as a Class I facility pursuant to RSA 362-F, New Hampshire's Renewable Portfolio Standard law. Staff has determined the application was complete in the initial filing received May 25, 2012.

The Granite Reliable Wind Project (Granite Reliable Wind) is located in Dummer, New Hampshire (Coos County) and is comprised of thirty-three (33), 3.0 MW Vestas V90 turbines; the facility began commercial operation February 15, 2012. Granite Reliable Wind's application provided evidence of approvals from multiple regulatory agencies including federal, state, and local entities. Granite Reliable Wind's renewable electricity generation is transmitted to a substation in Dummer and on to the NEPOOL grid.

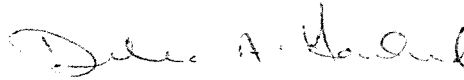

The NEPOOL generation information system (GIS) facility code has been verified as MSS 14595. The ISO-New England asset identification number is 14595.

The Commission has reviewed the Granite Reliable Wind application for RECs and determined that all necessary documentation has been provided to demonstrate this facility meets all the requirements of Puc 2502.02 and is eligible for certification as a New Hampshire Class I facility. Therefore, the Commission hereby certifies the

electrical generation from Granite Reliable Wind as a Class I renewable energy source effective May 25, 2012.

Attached please find a copy of the notice of this certification provided to the GIS administrator. The New Hampshire Renewable Portfolio Standard certification code for Granite Reliable Wind is NH-I-12-020.

Sincerely,

A handwritten signature in dark ink, appearing to read "Debra A. Howland", written in a cursive style.

Re: DE 12-140, Brookfield Energy Marketing Inc.  
Granite Reliable Power LLC Application for Class I Certification for New Hampshire  
Renewable Energy Certificates Pursuant to RSA 362-F for the Granite Reliable Wind  
Project

Dear Mr. Webb:

Pursuant to RSA 362-F, New Hampshire's Renewable Portfolio Standard law, the New Hampshire Public Utilities Commission has certified the electrical production from the Granite Reliable Wind Project LLC's (Granite Reliable Wind) thirty-three (33) Vestas V90 turbines rated at 3.0 megawatts (MW) each for a total generation of 99 MW as a Class I facility, effective May 25, 2012. Granite Reliable Wind commenced operations on February 15, 2012.

The ISO New England asset identification number is ISO-NE# 14595; the GIS facility code is MSS 14595. The facility is located in Dummer, NH. The New Hampshire Renewable Portfolio Standard certification code for the Granite Reliable Wind facility is NH-I-12-020.

Sincerely,

A handwritten signature in blue ink that reads "Debra A. Howland".
