**SUBJECT:** DT 12-147, Broadview Networks, Inc.  
Intrastate Access Reform  
**TO:** Commissioners  
Debra Howland, Executive Director

On June 1, 2012, Broadview Networks, Inc. ("Broadview") filed changes to its NH Intrastate Access Service rate schedule, to comply with the Federal Communications Commission (FCC) Report and Order FCC 11-161.

FCC Order 11-161 requires that CLECs reduce their revenue from intrastate switched access rates by one half of the difference between the revenue from intrastate access as recorded during the fiscal year October 1, 2010 through September 30, 2011 (FY 2011), and the revenue that would have been produced using interstate rates and FY 2011 intrastate demand. Carriers are required to calculate the allowed revenue and create a rate design to produce the allowed revenue.

Staff reviewed the Broadview filing and determined that the proposed revisions are consistent with the requirements of the FCC Order. Since this tariff has taken effect pursuant to RSA 378:3 and RSA 378:6, IV, no further review or approval is required.
