Re: DE 12-200, Powerhouse Systems, Inc.
Application for Weston Dam Solar Certification as a REC Eligible Facility

Dear Mr. Cloutier:

On February 27, 2014, the Commission received an application filed by Power House Systems. The applicant requested Class II New Hampshire Renewable Energy Certificate (REC) eligibility for the 0.044 megawatt (MW) Weston Dam Solar photovoltaic (PV) array. This array will be part of the Andrew Locke – Hydro Management Group's¹ (Hydro Management Group) approved aggregation pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law.²

The Commission, in a non-adjudicative process, is required to issue a determination of whether a facility meets a particular classification within 45 days of receipt of a completed application. The above-named facility is a customer-sited source and meets the Class II eligibility requirements under RSA 362-F:4, II. Based on review of the application Staff recommends Commission approval for Weston Dam Solar as an eligible Class II facility to be included in the Hydro Management Group aggregation, effective as of February 27, 2014.

Because this facility is a customer-sited source, its output is not recorded in the ISO New England Market Settlement System and, as a result must be monitored and verified by an independent monitor. The application states that Paul Button of Energy Audits Unlimited will monitor the output of this facility and will report the facility's output quarterly to the NEPOOL Generation Information System (GIS) and annually to

¹ The Commission approved Andrew Locke, Hydro Management Group, LLC /Essex Hydro Associates, LLC as an aggregator of Class II March 10, 2013, DE 14-032.

² Class II eligibility requires a facility to produce electricity from solar technologies that began operation after January 1, 2006 (RSA 362-F:4, II).

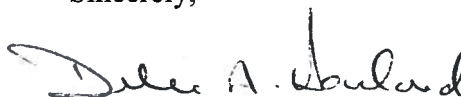

the customer and the Commission as part of Hydro Management Group's Class II aggregation pursuant to N.H. Code of Administrative Rules Puc 2505.08 and 2505.09.

Details for this facility are listed in the following table.

Docket #	Facility Name	Facility Location	Total MW	Effective Date to Produce Class II RECs	GIS Facility Code	NH Certification Code
DE 12-200	Weston Dam Solar	Groveton	0.044	02-27-14	NON 39169	NH-II-14-035

The Commission has determined that PowerHouse Systems has provided all the information necessary to demonstrate eligibility for certification and hereby certifies the Weston Dam Solar PV array as eligible to be aggregated by Hydro Management Group for Class II RECs effective February 27, 2014.

Sincerely,

Debra A. Howland
Executive Director

Re: DE 12-200, Powerhouse Systems, Inc.
Application for Weston Dam Solar Certification as a REC Eligible Facility

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified the 0.044 megawatt (MW) Weston Dam Solar photovoltaic (PV) array. The array will be part of the Andrew Locke – Hydro Management Group's¹ (Hydro Management Group) approved aggregation pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law.

Accordingly, Hydro Management Group is eligible to be issued Class II RECs, effective February 27, 2014 for this array. The following table summarizes this initial addition to Hydro Management Group's aggregation including the GIS Facility Code and the New Hampshire Certification Code.

Docket #	Facility Name	Facility Location	Total MW	Effective Date to Produce Class II RECs	GIS Facility Code	NH Certification Code
DE 12-200	Weston Dam Solar	Groveton	0.044	02-27-14	NON 39169	NH-II-14-035

Sincerely,

A handwritten signature in dark ink, appearing to read "Debra A. Howland".

Debra Howland
Executive Director
