Re: DM 12-253, Secure Energy Solutions, LLC (Secure Energy)
Renewal of Registration to Provide Electric Aggregation Service

Dear Mr. Duby:

On August 17, 2012, the New Hampshire Public Utilities Commission (Commission) received Secure Energy's notice of intent to renew its registration to provide electric aggregation service in the State of New Hampshire, pursuant to New Hampshire Administrative Rules Puc 2003.05. On September 28, 2012, Secure Energy requested a waiver of Puc 2003.05(a) requiring an application for renewal be filed no less than 60 days prior to the expiration of the currently effective registration. Secure Energy's renewal application was due 60 days prior to the expiration date of August 24, 2012.

On November 8, 2012, Staff filed a recommendation that Secure Energy's application for renewal of its registration be approved. Staff further recommended in light of the general confusion among aggregators regarding the adoption of amendments to Puc 2000 on August 25, 2010, the Commission grant the waiver request.

The Commission may waive a rule pursuant to Puc 201.05 if it finds the waiver serves the public interest and the waiver does not disrupt the orderly and efficient resolution of matters before the Commission. The Commission has determined that the applicable standards for a waiver are satisfied and that granting a waiver is consistent with the public interest.

Based on Staff's recommendation and the Commission's review, the Commission will approve renewal of Secure Energy's registration as a provider of electric aggregation service in New Hampshire.

Please note the following provision of Puc 2003.05 (f): "[E]ach approved aggregator shall re-notify the commission after the initial 2 year period, or after the 5 year renewal period as applicable, by filing with the commission an application for renewal at least 60 days prior to the expiration of the currently effective registration." Secure Energy's original notice anniversary date is August 24, 2006 and therefore it is required to refile an up-to-date written notice on or before **June 24, 2017** if it continues to offer and provide electric aggregation service. In addition, Secure Energy is subject to the provisions of Puc 2004.03, telephone solicitation of customers, and Puc 2004.08, customer protections provided by aggregators. Finally, aggregators must comply with the requirements set out in RSA 362-F relative to the renewable portfolio

standard (RPS) and RSA 362-F relative to disclosure of electric service energy sources and environmental characteristics. Please refer to Puc 2500 for further details regarding RPS reporting requirements. Commission Order No. 25,264 provides guidance as to the appropriate format for environmental disclosure.

If you have any questions regarding these provisions, please contact the Commission. Thank you for your cooperation in this matter.

Sincerely,

Debra A. Howland
Executive Director
