Re: DW 12-254 Forest Edge Water Company

Dear Ms. Howland:

In Order No. 25,575 dated September 20, 2013 the Public Utilities Commission ("PUC") ordered "that Forest Edge Water may file for step increase to its revenue requirement and rates no later than June 30, 2014, for the mapping project ..." The settling parties to the stipulation agreement recommended that "the Commission grant Forest Edge one step increase in its rates for costs relating to the system mapping required by the Department of Environmental Services (DES). Forest Edge may file for this step increase no later than June 30, 2014. The settling parties estimate that this step increase would increase Forest Edge's revenue requirement to \$26,352 or 4.45% higher than the permanent rate recommended in the settlement agreement."

On September 30, 2014 the Company requested that the time to file for this step increase be extended to June 30, 2015. By letter dated October 10, 2014 the PUC Staff indicated that it "believes the request is reasonable and recommends approval." On November 24, 2014 the Commission "granted the requested extension to the step adjustment deadline. The Company's step adjustment filing related to system mapping may be submitted no later than June 30, 2015."

Unfortunately, the Company has not been able to move forward on the mapping project due to the continued lack of cash. As such, the Company respectfully requests that the timeline to complete the mapping project and implement the related step increase be extended to June 30, 2016. A copy of the extension request has been mailed to the parties in this proceeding.

If you, the PUC Staff and / or the Commissioners have any questions or comments, please call me at 207-423-0215 or email me at stephenpstcyr@yahoo.com.

Sincerely,

Stephen P. St. Cyr
